# Overview

## Preface

The *Electronic Data Exchange (EDE) Technical Reference Guide* is designed to meet the reference needs of programmers and data processing staff.

The Department of Education (ED) provides two types of software to EDE participants:

- EDExpress for Windows software for processing student financial aid. Using EDExpress Financial Aid Administrators (FAAs) can enter and edit electronic initial FAFSAs, renewal FAFSAs, and electronic corrections. They can create duplicate requests, track documents, student aid packages, originate loans, and track disbursements for Pell and Direct Loans, and sending signature records for FAFSA on the Web, Renewal FAFSA on the Web, Corrections on the Web, and FAFSA EXPRESS applications.
- EDconn32 software for sending and receiving electronic files.

Many EDE participants need specifications for these functions to develop their own software or to develop software bridges between their own systems and EDExpress.

This guide provides sufficient information for you to build your own software to complement or take the place of the software provided by ED for sending and receiving Free Application for Federal Student Aid (FAFSA) data. It includes information about record layouts, required edits, print formats, specifications, and reject messages that are applicable for renewal FAFSAs, electronic FAFSAs, Institutional Student Information Records (ISIRs), electronic corrections, and signature records.

The EDE process is described in this section with additional information in the EDE Processing Section. There are numerous references to the use of EDExpress software, so this guide may be a useful reference tool because the processing steps remain essentially the same.

## Header and Trailer Records

Each batch of electronic records for initial and renewal FAFSAs, corrections, duplicates, Institutional Student Information Records (ISIRs), signature records, and Federal Data Requests (FDR) travels over the Student Aid Internet Gateway (SAIG) with a header and trailer record for identification.

You should refer to the Record Layouts Section for instructions on individual header and trailer record layouts (refer to Header Record Sent To/Received From the CPS and Trailer Record Sent To/Received From the CPS).

## Electronic FAFSA

An Electronic FAFSA begins with a signed Free Application for Federal Student Aid (FAFSA) or Renewal FAFSA, which is completed by the student. The data is entered by the school, exported to create a file, formatted, and transmitted via the SAIG to the Central Processing System (CPS). Processed FAFSA records are transmitted back to the school's destination point as ISIRs in separate message classes for initial and renewal FAFSAs.

The Record Layouts Section includes information on record layouts (Initial Application/Renewal Application Export Record Layout). Rejects are in the Processing Codes/System Requirements Section. How to handle rejected FAFSAs is located later in this section and the EDE Processing Section. The Printing Section includes details on printing ISIRs.

## Electronic Renewal Application Requests

The Electronic Renewal Application process involves three steps:

1. Requesting a Renewal Application Data (RAD) file of 2000-2001 applicants eligible for Renewal FAFSAs in the 2001-2002 processing year.
2. Receiving the RAD file.
3. Printing the Renewal FAFSA for distribution to students.

The Record Layouts Section includes record layouts for the RAD request file (RADD02IN) and RAD records received (RADD02OP). Information on reject reasons can be found in the record layout. The Printing Section contains specifications for printing the Renewal FAFSA.

In addition, electronic renewal application destination file requests (Type 2) may need special address records if you want CPS to print your Renewal FAFSAs. CPS prints Renewal FAFSAs only for the one-time bulk printing. These record layouts are located in the Record Layouts Section (refer to RAD Request Address 1 Export Record Layout and RAD Request Address 2 Export Record Layout). Both records may be required for the RADD02IN file. Renewal FAFSA entry and transmittal are discussed in the EDE Processing Section.

## Institutional Student Information Record (ISIR)

CPS generates an ISIR in response to:

- Electronic Free Application for Federal Student Aid (FAFSA), correction, or duplicate request from your school.
- Electronic FAFSAs and corrections done by another school. You will receive the resulting ISIR if your Federal School Code is listed on the transaction.
- Web applications or corrections using FAFSA on the Web, Renewal FAFSA on the Web, or Corrections on the Web.
- FAFSA Express applications

Automatic ISIRs are sent to destination points for every student indicating a school serviced by the destination point on the FAFSA, and to state agencies which elect to receive ISIRs for legal residents or students indicating a school in that state.

State agencies can request ISIRs for any student on the CPS database. This process is known as the Federal Data Request (FDR).

**New for 2001-2002:** The State Agency ISIR contains all data including the National Student Loan Data System (NSLDS) data.

The Record Layouts Section includes details on the ISIR record layouts. Comment codes and text, verifiable rejects, and how to respond to each are in the Processing Codes/System Requirements Section. The Printing Section contains specifications for printing the ISIR. The record layouts for FDR are in the Record Layouts Section (FDRS02IN), and the procedures for the FDR process are in the EDE Processing Section.

## Electronic Corrections/Duplicate Requests

Schools can submit corrections to FAFSA data electronically. The Record Layouts Section includes the record layouts for submitting corrections (CORR02IN**).** ~~formerly SARR02IN).~~

Schools can make duplicate requests to receive a specific ISIR transaction for a student provided their federal school code is listed on that transaction. The Correction and Duplicate Request record layouts are found in the Record Layouts Section (section 3) and are submitted in the CORR02IN message class.

Information about adding your Federal School Code to receive electronic data, making signature corrections, requesting a duplicate ISIR, and using the correction record are found in the EDE Processing Section (section 2).

## Handling Record Level Rejected Records

If the specifications in this guide are not followed on a particular record, an EDE Record Level Error Report file is transmitted to you and may be printed as an error report. (The layout is in the Record Layouts Section.)

The EDE Record Level Error Report contains the record's serial number, the student's ID, the transaction number, last name, first name, the SAR field number in error, an edit code, an error code and a text explanation for the reason the record was rejected. Each field in error is reported. If it was rejected due to invalid value, CPS sends the actual value of the data received from the school. A serial number and student ID is listed more

than once in the EDE Error Record Report when a record has more than one field in error. See the Processing Codes/System Requirements (section 4) for additional details about rejects. The following is a list of message classes for reporting errors:

| | |
|---|---|
| CORE02OP | Electronic Correction or Duplicate Request Errors |
| FDRE02OP | Rejected FDR Requests |
| EAPR02OP | Electronic Application Rejects |
| RAPR02OP | Renewal Application Rejects |
| SIGA02OP | Signature Correction Acknowledgments & Errors |
| EREP02OP | Renewal Request (RAD) Errors |

## Handling Batch Level Rejected Records

A Batch Level Error Report is returned to you if an entire batch is rejected because of an incorrect batch number. The message classes are the same as used for rejected individual records. The layout for this report appears in the Record Layouts Section (section 3). The Processing Codes/System Requirements (section 4) has the specific error codes and messages.

## What's New for 2001-2002

Listed below you will find some of the significant changes for 2001-2002. Please refer to Section 4, Processing Codes/System Requirements, 2000-2001/2001-2002 ISIR Cross Reference table for a cumulative list of changes to the ISIR.

- We added data elements on the 2001-2002 FAFSA and ISIR.

  ***Do You Have Children (Question 55)***

  The 2000-2001 question "Legal Dependants Other Than a Spouse," (question 57 from the 2000-2001 FAFSA) was separated into two separate questions:

  55. Do you have children who receive more than half of their support from you?

  56. Do you have dependents (other than your children or spouse) who live with you and who receive more than half of their support from you, now and through June 30, 2002?

***Student's Income from Worksheet C (Questions 46)***
***Parents' Income from Worksheet C (Questions 80)***

The redesign efforts of previous years moved the welfare amounts to worksheets. Over the past year we received comments from the financial aid community requesting a way to determine values for the welfare amounts because some schools offer certain aid based on these figures. To accommodate this request the Worksheet A was split into two worksheets moving the previous Worksheet B to Worksheet C. Worksheet A includes untaxed "Need-based income" and Worksheet B includes untaxed "Non-need based income." Worksheet C includes income exclusions.

***Student's Business/Farm Net Worth (Questions 48)***
***Parents' Business/Farm Net Worth (Questions 82)***

The Business Net Worth and Farm Net Worth are combined into one FAFSA question for both the Student and Parent's.

- We deleted data elements on the 2001-2002 FAFSA and ISIR.

***Have a Driver's License***
***Student's Earned Income Credit***
***Parent's Earned Income Credit***

The individual questions were removed from the FAFSA and these figures are now collected on Worksheet A.

***Student's Business Net Worth***
***Parent's Business Net Worth***
***Student's Farm Net Worth***
***Parent's Farm Net Worth***

The Business Net Worth and Farm Net Worth are combined into one FAFSA question for both the Student and Parent's. The new question is Student's or Parent's Business/Farm Net Worth.

We added new fields on the ISIR.

***Student's E-mail Address***

In 2001-2002, students have the option to provide an e-mail address when completing one of our electronic FAFSAs, including Corrections on the Web and FAFSA Express. The e-mail address can also be sent on an electronic FAFSA. The student's e-mail address prints on the Application Information Report (Echo Document-summary of the data entered by the applicant), SAR, SAR Acknowledgement and ISIR. Applicants can correct or update their e-mail address using Corrections on the Web, by calling the Public Inquiry Contractor (PIC) at 800-433-3243, or through the school electronically. Students cannot use their paper SAR to correct or update their e-mail address.

We use the e-mail address to notify an applicant when their FAFSA is added to the hold file and again when the FAFSA is processed.

***Duplicate SSN Flag***

Is now on the ISIR to indicate whether a student is using an original SSN that is the same as another original SSN already on file at the CPS. This field was added as an indicator for Financial Aid Administrators (FAAs). A 'Y' in the field indicates that another filer is using this original SSN.

***Source of Correction Flag***

As requested by the financial aid community this field indicates who made corrections to a transaction.

A = Applicant

S = School

D = CPS

***EFC Change Flag***

Indicates if the EFC has increased or decreased from the transaction that was corrected.

1 = EFC increased

2 = EFC decreased

Blank = No change

***DL Master Prom Note (MPN) Flag* and the *FFEL MPN Flag***

These determine the status of the Direct Loan MPN and FFEL MPN respectively.

A = Active

I = Inactive

C = Closed

N = No MPN on file

***U = Unavailable***

***NSLDS FFEL Lender Code***

If there is a FFEL MPN Flag, this code indicates the lender by their Federal School Code, or whether there are multiple lenders.

Federal School Code X00000-X99999

Y = More than 1 lender and N/A

***~~Extra~~ Additional Unsubsidized Flag***

Added to the loan level it informs schools that the aggregate loan amount borrowed includes unsubsidized loan amounts in excess of the normal aggregate loan limits. This occurs when the dependent student's parent was denied a PLUS or the student is a Health Professions student.

***Capitalized Interest Flag***

Added to the loan level for informational purposes only. It does not tell you the amount of additional loan funds the student received.

- State Agency ISIRs and Federal Data Request (FDR) ISIRs now contain NSLDS data.
- New CPS edits

***FAFSA Question 9 edits.*** Your date of birth – If the applicant provides 1900, 1901, or 1902 as their date of birth, the FAFSA is rejected with a verifiable reject A.

***FAFSA Question 39 & 40 and 73 & 74 edits.*** Adjusted Gross Income (AGI) and Taxes Paid – If the applicant or the applicant's parent(s) provide a value for taxes paid that is equal to the AGI, the FAFSA is rejected with a verifiable reject C.

***Paper FAFSA without a Signature.*** If the applicant submits a paper FAFSA without the student's signature, the FAFSA is processed and

the student receives a rejected SAR/ISIR. Last year the FAFSA was returned to the student unprocessed. A reject 14 is applied and comment 160 prints on the SAR/ISIR.

***Duplicate SSN Flag.*** When the original SSN is the same as an original SSN on a transaction already on file, but the first two letters of the last name are different the Duplicate SSN flag is set. This change better enables our systems to prevent payment on duplicate SSNs.

***FAFSA Question 60 & 62, Father's/Stepfather's and Mother's/Stepmother's SSN.*** A new edit verifies that parent SSNs are within valid range of all SSNs issued by the Social Security Administration (SSA). Comment 166 indicates that the Mother's/Stepmother's SSN is out of range and Comment 167 indicates that the Father's/Stepfather's SSN is out of range.

- The 2000-2001/2001-2002 ISIR Cross-Reference table contains a column to define all valid field content changes. This table is a cross-reference for the 2000-2001 ISIR field number, start position, and end position for the corresponding field for 2001-2002. The table is located in Section 4, Processing Codes and System Requirements.
- New message class: HOLD02OP contains information for students who listed a school on a web application and are pending a signature page. The new file format is found in Section 3- Record Layouts.
- Beginning in 2001-2002, FAFSAs and corrections without a student signature (reject 14 or 16) are not sent to any of the database matches, as appropriate.
- A new comment is added for graduate students with an eligible EFC in a teaching credential program because they may be eligible for the Federal Pell Grant Program.

# What's Changed for 2001-2002

Listed below you will find some of the significant changes for 2001-2002. Please refer to Section 4, Processing Codes/System Requirements, 2000-2001/2001-2002 ISIR Cross Reference table for a cumulative list of changes to the ISIR.

- Start up for the CPS begins earlier this year on January 2, 2001.
- Modified fields on the ISIR

  The ***Drug Offense Conviction*** question has been revised as a result of changes to the FAFSA. Students now fill in a "Yes" or a "No" oval, just as they do with other Yes/No questions on the FAFSA. The underlying valid values, however, are similar to 2000-2001's:
  Drug Conviction Affecting Eligibility?

  1 = No
  2 = Yes (Part-Year)
  3 = Yes / Don't Know

  Students who enter "No" to question 35 on the FAFSA receive a "1" on their SARs. Student who enter "Yes", or leave the question blank, receive a "3" on their SARs, indicating that they "Don't Know" whether or not their conviction(s) affect their eligibility. These students receive a drug worksheet with their SAR displaying a special comment directing them to use the worksheet to determine whether their conviction affects their eligibility and to use the SAR to make a correction if necessary.
  ***Correction Flags*** now distinguish between fields that were corrected on the current transaction or on a previous transaction. To help you determine if a change is associated with the current transaction or a previous transaction the following values are used for Correction Flags.

  0 = No Correction made

  1 = Field Corrected on this transaction

  2 = Field Corrected on previous transaction

  ***Overpayment values*** of D and W added:

  D = Deferred means the student owes an overpayment but returned to school, so the overpayment repayment will likely be deferred until the student leaves school.

W = Waived means the student is a first time student who was awarded, but withdrew so the overpayment is automatically waived.

***Field lengths*** have increased for Student's first name (from 9 to 12 bytes) and Street address(from 28 to 35 bytes). The field lengths for Pell EFC, Scheduled Amount, Award Amount, Amount Paid, and Remaining Amount Paid increased from 4 bytes to 6 bytes to agree with data sent from RFMS to NSLDS.

***Outstanding Principle Balance title*** changed to Aggregate Balance

***Post-Screening Reason Code.*** The values of 5 and 9 were added as a result of Master Promissory Note (MPN) changes.

5 = DL or FFEL MPN value has changed

9 = Other

- Changes to CPS edits:

Deleted reject reason 20 as a result of edit changes.

***FAFSA Question 54 edit.*** **"**As of today, are you married?"

If an applicant corrects his/her marital status, comment 75 is generated and printed on the SAR/ISIR. This comment was added at the request of the financial aid community to alert them to review the change. This question can be corrected if it was answered incorrectly on the initial FAFSA, but can not be updated if their marital status has changed since they initially filed.

***FAFSA Question 65 edit.*** **"**Parent's number in college"

This edit was added in mid-cycle 2000-2001 to better detect when parents have mistakenly been included in the number in college question for dependent students. This enhancement carries over into 2001-2002.

*Parent's married:* If the parents are married, the number in college cannot be greater than the number of people in the household minus 2.

*Professional Judgement (PJ):* If a Financial Aid Administrator exercises professional judgement to include parents in the number in college, these edits are not applied.

***FAFSA Questions 36 and 70 edit.*** For 2000, have you completed an IRS Income Tax Return?

Currently**,** comment 157 is triggered on the initial transaction only for applicants who indicated that they have not yet filed their income tax forms and provided estimated information on their FAFSA.

New, in 2001-2002 comment 157 continues to print on subsequent transactions (SARs and ISIRs) until the response to the tax filing question is changed.

- Changes to Message Classes

  This year we have added a new message class and renamed some existing message classes. The cycle indicator changes to "02" as part of our annual changes.

  The correction import message class and errors from the CPS, SARR02OP and SARE02OP are changed to CORR02OP and CORE02OP to make them consistent with the import file name of CORR02IN.

  The Resident and Non-resident ISIR message classes for state agencies have been renamed. Resident ISIRs changes from YTDN02OP to YTDR02OP. Non-resident ISIRs changes from YTDF02OP to YTDN02OP.

- Changes to Matches

  ***Selective Service (SS) Match and Registration***

  If an applicant changes the response to "Are you Male" from 'Yes' or "Blank" to 'No,' the record is not sent to the SS for matching again.

  If the applicant changes his or her SSN, First Name, Last Name or Date of Birth from a previous transaction that has already been confirmed or exempted by SS, the transaction is sent to the SS again with the corrected information.

  If Date of Birth is blank, the transaction is not sent to the SS for matching.

### *Social Security Administration's (SSA) Prisoner's File*

The match with SSA's Prisoner File is implemented as a postscreening match. CPS conducts the prisoner match with SSA approximately every two weeks after FAFSAs and corrections have been processed and SARs/ISIRs have been sent. If a record comes back from SSA with an unfavorable prisoner match result, CPS generates another SAR/ISIR to report the match findings. The CPS system generated indicator is 'P' to identify these records.

### *INS Secondary Confirmation Match*

We are working with INS to set-up an automatic Secondary Confirmation Match. We will implement this new match as a pilot, but not until sometime after the 2001-2002 start-up.

The way we plan for this match to work is, when we receive records back from INS from Primary Verification, we will determine which records have a match flag of "N", not an eligible non-citizen. Then we will immediately send the INS another file of these records for their secondary confirmation process. As soon as INS processes the results, they will send the record back to CPS, and we will create a system-generated ISIR and SAR to report the result to schools and students.

As you know, all system-generated ISIRs are in a separate message class, SYSG02OP. The CPS system generated indicator is set to "I" to identify these records.

# EDE Processing

## Introduction

This section provides a more detailed description of the EDE process. It provides instructions for each of the individual processes within EDE.

## Electronic FAFSA

The Electronic FAFSA process allows destination points to enter FAFSA data and send it to the Central Processing System (CPS) for processing. The FAFSA data can be collected on either a Renewal FAFSA or the Free Application for Federal Student Aid (FAFSA). Once processed by CPS, the results of the Electronic FAFSA are transmitted back to the destination point.

EDESuite software is provided free to destination points by the U.S. Department of Education (ED). It allows financial aid administrators (FAAs) to enter the FAFSA information into a personal computer. However, schools may choose to develop their own software instead. Regardless of whether the FAFSA data is entered using EDExpress or other software, the data must adhere to ED's editing rules in order to be accepted by CPS.

The remainder of this section includes specifications for developing software to provide the required Electronic FAFSA functions.

## Electronic FAFSA Process

The Electronic FAFSA process involves five steps:

1. The student submits a completed and signed FAFSA or Renewal FAFSA to the school.

2. The information on the FAFSA is key entered.

3. The FAFSA data is edited and corrected until a file of clean data is created. The data elements for each field must be in the valid range with no inconsistencies in the data. For example, the system will generate an edit for inconsistent data in these fields when a student indicates a single status yet provides income earned from work for student and spouse.

4. That file is formatted and transmitted to CPS via the Student Aid Information Gateway (SAIG).

5. Processed FAFSA records are transmitted back to the destination point as Institutional Student Information Records (ISIRs) under either message class EAPS02OP for initial applications or message class REAP02OP for renewal applications.

### *Receiving the Completed FAFSA or Renewal FAFSA*

Schools participating in Electronic Applications must have their students complete and sign a FAFSA or Renewal FAFSA. The FAFSA form is provided by Dept. of Education (ED). The completed and signed document must be kept on file at the school.

### *Entering the FAFSA Information*

As part of FAFSA entry, you are responsible for ensuring that the data meets the field-by-field criteria provided in the 'Valid Field Contents' column of the Application Record Layout. The record created by your software must adhere to the record layout provided later in the Record Layout Section with the addition of a Carriage Return/Line Feed (CR/LF, ASCII 13, 10 HEX 0D and 0A respectively) at the end of each record. Use of an end-of-file mark (ASCII 26 or HEX 1A) is optional. FAFSAs with invalid dates or formats are rejected.

### *Formatting and Transmitting the Records*

Use EDconn32, the transmission software provided by ED, to format your data records and transmit them over Student Aid Internet Gateway (SAIG). The batch Header and Trailer Records are provided in the Record Layouts Section. Each batch to be transmitted must start with a Header Record followed by the data records followed by the Trailer Record.

### *Receiving Processed Records*

You receive your processed FAFSA records in ISIR format in one of two message classes: EAPS02OP for initial FAFSAs or REAP02OP for renewal FAFSAs.

**Note:** See the Printing Section for more information on printing ISIRs.

There may be instances when CPS does not accept your records for processing. CPS returns a rejected electronic initial application error report to you in the message classes EAPR02OP or RAPR02OP. The Overview and Processing Codes/System Requirements Sections contains two layouts for rejected FAFSAs. One is for rejects at the batch level (the whole batch rejects), EDE Batch Level Error Report Import Record Layout, and the other is for rejects at the record level (individual record(s) reject), EDE Record Level Error Report Import Record Layout.

### *Rejected Initial and Renewal FAFSA Records*

There are two categories of rejections for submitted FAFSA records: transaction and compute rejects.

**1. Transaction Rejects**

A transaction reject prevents the initial FAFSA record from being processed. If a record is rejected for one or more reasons, an error report is returned to the school in message class EAPR02OP (see layout in the Record Layouts Section) and no ISIR is created. These rejects are also known as record level rejects.

**2. Compute Rejects**

CPS contains a series of edits that evaluate all incoming initial FAFSA data for consistency and completeness. These edits apply to all data from electronic and paper input. An Expected Family Contribution (EFC) is not computed for ~~an~~ ***a*** FAFSA rejected for a compute reject reason. However, an ISIR is produced. Application ISIRs with a compute reject are returned in the EAPS02OP message class. The reasons for the compute reject are coded on the ISIR. Refer to the Processing Codes/System Requirements Section for information on interpreting these reject codes.

There are two types of FAFSA compute reject reason codes, numeric and alphabetic:

- Numeric: certain data items MUST be corrected before a valid ISIR can be generated (Non-Verifiable).

- Alphabetic: certain data items must be either corrected or verified before a valid ISIR can be generated (Verifiable). An alpha reject reason code is a verifiable data element, meaning the data given is questionable but could be correct.

In the paper system, a student can verify a data field by re-entering the same information in the SAR correction column for the field in question. In the electronic process, the school verifies the data (reenters the data as a "correction") and transmits the correction record to CPS. Data that must be verified or corrected in response to each reject reason is provided in the Processing Codes/System Requirements Section.

A student's record may not have an EFC if the record contains questionable data and has ~~an~~ ***a*** FAFSA reject reason code(s). The reject reason code(s) is found in position 610-623 on the ISIR and explains the questionable field(s) and the highlighted field(s).

# Electronic RAD Requests

Schools participating in the "Electronic Renewal FAFSA" service are able to request 2001-2002 Renewal FAFSAs for returning students that contain 2000-2001 information on file at the Central Processing System (CPS) as of October 2000. Please refer to the Action Letters available on the IFAP Web site for additional information on the Renewal Application Request process. The Renewal FAFSA displays the 2000-2001 information. The student applicant either verifies that the 2000-2001 information is still correct for 2001-2002 or updates the information.

A new software product, Renewal Applications for Windows 2001-2002, is a standalone PC application that allows you to submit Type 2 RAD requests, import and print the Renewal Applications for distribution to your students. The software became available on the Department's SFAdownload Web site (**http://www.sfadownload.ed.gov**) in October 2000.

Schools then use EDExpress to enter and transmit the RAD data back to CPS. EDExpress enables schools to import the Renewal Application Data file and enter and transmit completed renewal FAFSAs. Schools can choose to develop their own software. The Record Layouts Section provides layout specifications for developing software to perform the required Renewal Application functions.

## Renewal FAFSA Process

The Renewal FAFSA process involves three steps:

1. Requesting a file of the 2000-2001 applicants eligible for Renewal Application (this file is known as the RAD file).
2. Receiving the RAD file.
3. Printing the Renewal FAFSAs for distribution to students.

Once the student returns a completed Renewal FAFSA to the school, the data are entered, edited, and transmitted to CPS. The procedures for entering, editing, and transmitting the Renewal FAFSA are identical to those used for an initial electronic FAFSA, except positions 476-484 (RAPP SSN) and positions 485-486 (RAPP Name ID) must be completed for CPS to process the Renewal FAFSA.

### *Requesting the RAD File*

Schools participating in the Renewal FAFSA process must first request a file of eligible 2000-2001 applicants from CPS. To be eligible, the 2000-2001 applicant must have a transaction on file at CPS with a computed Expected Family Contribution (EFC). That transaction must not have an undeliverable or foreign address, be flagged for Professional Judgement, or have a Dependency Override, and there can be no duplicate current Social Security Number (SSN) on file. Also, the student must not be in default on a Title IV loan and must not be on the ED Hold File.

The RAD request must be made electronically. For 2001-2002, three methods are available to request RAD files.

1. Schools can dial into CPS using the 3270 Emulator to connect to On-Line Query to request these files. Instructions for dialing into CPS using the 3270 Emulator can be found in Action Letter #2 published in September 2000.
    - Schools can request that a PIN be mailed to their students instead of the renewal FAFSA.
    - If the renewal request is made before October 27, 2000 with a request that CPS does not print the renewal FAFSAs, then the school must print the renewal FAFSAs and distribute them to the students.
    - If the renewal request is made after October 27, 2000, the school is not required to print the renewal FAFSAs. The CPS will print and send them to the students.
    - Schools can request that an electronic file not be sent to them. If this option is selected they cannot request the electronic file again.

2. Schools can create a customized file of SSNs and transmit them to CPS via EDconn32. If you choose this method, use the file format titled Type 2 Request Individual RAD Records Description located in the Record Layouts Section (Message Class RADD02IN). If you want CPS to print and bulk mail your Renewal FAFSAs to an address other than the one associated with your destination point, then you must include the RAD Request Address 1 and Address 2 records, following the header record. CPS prints and bulk mails Renewal FAFSAs only to those schools that made accepted requests during the initial request period in October. Information on this process is included in Action Letter #2, published in September 2000.
3. Schools can also use the Renewal Applications for Windows software to request RAD data. This new software became available for download from the SFA Download site in October 2000. Renewal Applications for Windows gives schools the opportunity to request a RAD file and receive the RAD data earlier, instead of waiting for the release of EDExpress for Windows in December.

### *Receiving the RAD Records*

CPS may reject RAD requests. If the request file is rejected, it is returned to you with reject reasons in message class EREP02OP. You must fix the errors and resubmit the request by the deadline if you want CPS to print the Renewal FAFSAs. You must open the file and look in the error fields defined in the Record Layout Section (Type 2 Individual RAD Request Export Record Layout).

The RAD records are received in fixed-length records over the SAIG. The message class is RADD02OP.

# ISIR

The Institutional Student Information Record (ISIR) is a fixed-length record containing reported information from the Free Application for Federal Student Aid (FAFSA), as well as key processing results. The names and addresses of the colleges the student plans to attend in 2001-2002 are translated to a 6-digit identifying Federal School Code on the ISIR. The preparer's name or address is not entered by the MDEs (application processors). For the most part, all information printed by CPS on the Student Aid Report (SAR) is coded on the ISIR.

**Note**: The average CPS processing time is between 48-52 hours.

## NSLDS Data

The ISIR for schools carries National Student Loan Data System (NSLDS) information, which is located at the end of the ISIR Record Description.

**Note to State Agencies**: NSLDS information is now carried on ISIRs for state agencies.

## ISIR Receipt Process

ISIRs are transmitted by CPS to the Student Aid Information Gateway (SAIG) in batches containing a batch header record, one or more ISIRs, and a batch trailer record. Descriptions of the contents of the ISIR are in the Record Layouts Section. CPS Header and Trailer records are described in the Record Layouts Section and at the end of this section.

### *ISIR Types*

There are four reasons why CPS generates an ISIR:

1. ISIRs are automatically generated in response to a FAFSA or correction entered at a site other than your school or state agency. These "automatic ISIRs" are generated following the entry of a paper FAFSA or SAR by the MDE application processors or by an electronic FAFSA from the FAFSA Express, FAFSA on the Web, Renewal on the Web, or Correction on the Web user. They may also be produced following the entry of an electronic FAFSA or correction by another EDE school. ISIRs resulting from students correcting

their data on the Web are sent to the school this way. Automatic ISIRs are sent to school destination points in the SARA02OP message class. State agencies receive Non-Resident ISIRs in the ESFN02OP message class and Residents in the ESFR02OP message class.

2. ISIRs are generated in direct response to electronic initial or renewal FAFSAs, correction/duplicate records, and signature correction records submitted by your school. ISIRs are returned to destination points in the EAPS02OP, REAP02OP, CORR02OP, and SARA02OP message classes, respectively.
3. ISIRs are generated in response to a request by state agencies through the Federal Data Request (FDR) process. This process allows agencies to request a processed FAFSA record for any student on CPS database. ISIRs are returned to the State agency's destination point in FDRF02OP message class.
4. ISIRs are system-generated due to reprocessing by CPS, NSLDS post-screening, and an applicant being released from a hold file. These ISIRs are returned in the SYSG02OP message class. Any ISIR that has a value in the systems generated field are returned in the SYSG02OP message class except when the value is L, duplicate request, or blank.

### Automatic ISIRs for Schools

All automatic ISIRs (for example, ISIRs generated in response to input by a site other than your school or state agency) are transmitted daily from CPS to the Student Aid Information Gateway (SAIG) in message class SARA02OP for schools, ESFR02OP (state residents), or ESFN02OP (non-residents) for state agencies.

Each school subscribing to the ISIR service automatically receives one ISIR for every student who lists their school on the FAFSA. Servicers receive only one ISIR per destination point.

If an ISIR receives a reject code of 14, 15 or 16 (missing signatures), the school and state agency receive the full ISIR electronically. As with other rejects, an EFC is not computed until the reject is resolved.

**Requested ISIRs**

Requested ISIRs are generated in response to input from the school or state agency. ISIRs requested by schools are transmitted to the SAIG in one of five message classes, depending upon the type of input.

- EAPSO2OP
  ISIRs in this message class are returned to the school in response to electronic initial FAFSAs. The school receives one ISIR for every initial FAFSA submitted that did not receive a transmission reject. Refer to the Record Layouts Section for EDE Batch or EDE Record Level Error Report Record Layout and Processing Codes/System Requirements Section for batch and record level reject error messages.

- REAP02OP
  ISIRs in this message class are returned to the school in response to electronic renewal FAFSAs. The school receives one ISIR for every renewal FAFSA submitted that did not receive a transmission reject. Refer to the Record Layouts Section for reject error report layout and Processing Codes/Systems Requirements Section for batch and record level reject error messages.
- CORR02OP
  ISIRs in this message class are returned to the school in response to electronic corrections or duplicate requests. The school receives an ISIR for every correction or duplicate request submitted that did not receive a transmission rejection. Refer to the Record Layouts Section for the EDE Record Level Error Report Import Record Layout, and the Processing Codes/System Requirements Section for record level error messages.

  **Note:** A school, with the student's consent, is able to electronically add its Federal School Code to the list of school choices on the student's ISIR record with the Data Release Number (DRN). Instructions for this are explained later in this section.

- SYSG02OP
  ISIRs in this message class are sent to the school as a result of a transaction automatically created by CPS. The school does nothing to initiate these ISIRs. There are several instances when CPS generates an ISIR for a student:
  - Hold File status changes
  - CPS Reprocessing of records due to formula changes
  - CPS receives changed information via NSLDS Post-Screening INS Secondary Match
  - Prisoner post-screening
- SARA02OP
  Requested ISIRs in this message class are sent to the school as a result of the school sending a signature for an applicant and/or the parent who filed using one of the Web products or FAFSA Express. Automatic ISIRs in this message class are also received from paper FAFSAs and corrections, from another school filing an electronic FAFSA or electronic correction with your school listed, or a student filing a FAFSA on the web or making corrections on the web.

## State Agency Options

State agencies can combine processed Free Application for Federal Student Aid (FAFSA) data from CPS with common loan application data to guarantee federal student loans and/or with state data to award state scholarships and grants.

**NEW for 2001-2002:** State agency ISIRs include NSLDS information.

As destination points, state agencies have two options for obtaining processed FAFSA data:

- Automatic ISIR Processing
- Federal Data Request (FDR)

### *Automatic ISIRs for State Agencies*

Each state agency subscribing to the ISIR service can choose to automatically receive one ISIR for every student who:

- Indicates that state on the FAFSA as the state of legal residence
- Is a non-resident but lists a college within the state
- Both of the above

**Note:** If the student indicates on the FAFSA more than one school that is located in your state, your state agency receives only one ISIR.

Automatic ISIRs are transmitted daily from CPS to the SAIG in one of two message classes:

| | |
|---|---|
| ESFR02OP | State Agency ISIR Resident |
| ESFN02OP | State Agency ISIR Nonresident |

**Note:** The state agency indicates what type of ISIRs (residents, non-residents or both) it wants to receive on the Title IV WAN Letter of Application.

## Federal Data Request Processing (FDR)

A Federal Data Request (FDR) is the process by which a state agency can request the electronic processed FAFSA record for any student in the CPS database.

In the case of students who are neither residents of the state nor attend a school in the state, an FDR can be made if the student has signed a loan or state grant application that releases CPS data to the state agency. The agency must retain the signed FAFSA. When requesting and receiving this data from CPS, use the following message classes:

| | |
|---|---|
| FDRS02IN | FDR Request |
| FDRF02OP | Processed FDRs |
| FDRU02OP | Unfulfilled FDRs not on CPS Database after 30 days |

~~**Note:** The record length of the FDRS02IN has changed to 580 bytes to include the NSLDS information.~~

## Requesting FDRs

To request a specific applicant's record, the agency must transmit over the SAIG the Social Security Number (SSN) and the first two letters of the last name. Use the record layout FDR Export Record Layout (FDRS02IN) in the Record Layouts Section. Use the following steps to create a request for a *single* applicant's record:

1. In the first position of the record, enter 2 to indicate this is a request for a 2001-2002 applicant transaction.

2. Leave positions 2 through 14 blank.

3. Enter 199 in positions 15 through 17. This indicates a request for an ISIR record.

4. Enter the student's SSN as reported on the original FAFSA in positions 18 through 26.

5. In positions 27-28, enter the first two letters of the student's last name as entered on the original FAFSA.

6. Leave positions 29 through 579 blank.

7. Enter F (FDR) in position 580.

Remember, prior to sending the file, you must add a header record before the FDR request record(s) and a trailer record after the FDR request record(s).

## Requesting More than One FDR Record

Up to twelve FDRs can be requested on a single record (Message Class FDRS02IN). To request up to twelve records, repeat steps 4 and 5 using the remaining data fields on the FDR record. The second record begins in position 53, the third in position 91, the fourth in position 129, the fifth in position 167, the sixth in position 205, the seventh in position 243, the eight in position 281, the ninth in position 319, the tenth in position 357, the eleventh in position 395, and the twelfth in position 433.

To request more than 12 ISIRs, create an additional record by repeating steps 1 through 7.

### Response to an FDR Request

State agencies receive one batch of ISIRs in response to each batch of FDR records submitted. The batch, or message class, of ISIRs is FDRF02OP. It contains one ISIR for every submitted FDR record that was not rejected.

If a requested student record is not found on the CPS database after 30 days, a notice is returned to the requesting agency in message class FDRU02OP.

### Rejected FDR Records

A transaction reject prevents the FDR record from being processed at CPS. If a record is rejected for one or more reasons, an error report is returned to the agency in a message class titled FDRE02OP.

# Electronic Corrections

Schools with destination points enrolled for electronic correction processing are able to transmit corrections to FAFSA data via the SAIG.

EDExpress allows schools to enter and edit correction data according to system requirements. It also creates an electronic correction record ready for transmission using the communications interface software, EDconn32. Schools, however, may choose to develop their own software to enter, edit, and format correction data. Specifications for developing correction software are provided in the remainder of this section.

## General Correction Entry Specifications

Only corrected information from a student's record, not the complete applicant record, is transmitted to CPS. This approach minimizes the transmission volume. Corrected information is transmitted as a fixed-length record. The layout and description of this record is in the Record Layouts Section, History Correction Export Record Layout (CORR02IN).

Use the following steps to create a correction record:

1. In the first position of the record, enter 2 to indicate this is a correction to a 2001-2002 applicant transaction.

2. In positions 2 through 10, enter the applicant's original Social Security Number (SSN). This is the number reported by the applicant on the initial FAFSA form and does not reflect any corrections to the SSN that might have been made.

3. In positions 11 and 12, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the initial FAFSA form and do not reflect any corrections to the last name that might have been made.

4. In positions 13 and 14, enter the transaction number of the applicant record being corrected. For example, enter 01 to correct the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at CPS. If the transaction number being corrected is not on the CPS database, the record is rejected. If you want to correct the most recent transaction you can enter 99.

   **Note:** When making a correction using transaction 99, field number 086 (the first Federal School code) and field number 112 (DRN) must be provided on the record.

5. In positions 15 through 17, enter the Student Aid Report (SAR) number of the SAR field being corrected. Each correctable field has a 3-digit SAR number associated with it. For example, enter 001 to correct the student's last name. The SAR numbers with valid field content are provided in the Correction Data Entry Specifications table found in the Processing Codes/System Requirements Section.

6. In positions 18 through 52, enter the new value for the field being corrected.

7. In positions 471 through 476, enter the Federal School Code of the school making the correction.

8. In positions 477-526, enter or correct the student’s e-mail address.

9. In positions 553-560, enter the transaction receipt date. This is the date you received the correction information from the student.

10. In positions 575-579, enter the serial number, the sequential position of the correction record in the batch. For example, the first correction record has a serial number of 00001, the second student's 00002.

11. In position 580, enter H (history change).

Up to 12 SAR data fields can be corrected on a single record.

Repeat steps 5 and 6 using the remaining data fields on the correction record if more than one field is being corrected. If more than twelve fields require correction, an additional record must be created, repeating steps 1 through 10. Both data records for the student have the same serial number.

**Note:** To correct a field to blank, enter a single asterisk (*) left justified in that field. The Correction Data Entry Specification table, in Section 4, distinguishes which fields can be corrected to blank as not all fields can be.

## Detailed Data Entry Specifications

Each corrected value must meet certain standards; otherwise, the correction record is rejected. Field-by-field data entry specifications are provided in the Processing Codes/System Requirements Section. For each field, these specifications identify the type (character, numeric, or signed/numeric), acceptable length, whether the field is correctable, whether the field is correctable to blank, and the valid values for the correction. Keep the following items in mind:

- Left justify the corrected value within the data field on the correction record, while zero filling numeric fields up to the valid maximum length of the field. For example, to correct the number of family members to 5, enter 05 in positions 18 and 19, leaving positions 20 through 52 blank. To correct the

student's last name to Smith, enter SMITH in positions 18 through 22, leaving positions 23 through 52 blank.

- All 9s in a field indicate the reported or calculated value is greater than or equal to the value of all 9s. Blanks are allowable in some fields.
- Fields can contain one of three data types:
  - Character
  - Numeric
  - Signed Numeric
- A negative entry is acceptable for a limited number of fields. The Correction Data Entry Specifications table in the Processing Codes/System Requirements Section identifies the fields in which a negative is acceptable under the Justify/Signed column and the valid field content column. Below you will find a Signed Numeric Field table that also defines the signed fields. With signed numeric fields, the sign is always implied in the right most character of the field. For example, if the Student's Adjusted Gross Income field contains a value of negative 3507, it appears as 00350P. The following chart explains the conversion of the sign and the number:

  Signed Numeric Fields:

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| { | +0 | E | +5 | } | -0 | N | -5 |
| A | +1 | F | +6 | J | -1 | 0 | -6 |
| B | +2 | G | +7 | K | -2 | P | -7 |
| C | +3 | H | +8 | L | -3 | Q | -8 |
| D | +4 | I | +9 | M | -4 | R | -9 |

The table listed on the next three pages defines all the signed fields that can be sent to and received from CPS.

## Making Signature Corrections

For 2001-2002, signature information is required only to resolve signature rejects (rejects 14, 15 and 16). Signature information does not need to be provided on other standard history corrections. If you have a transaction that was a reject 14, 15 or 16, simply correct SAR field #099 (Signed By) to A (Applicant) or B (Both = Student and Parent), as appropriate.

If you need to add a signature to a student's record on the web hold file you must use the layout for Signature Correction Export Record Layout (SIGS02IN) found in section 3, Record Layouts. You can correct the student or parent signature using this layout. You must make sure the student included your school on the FAFSA or correction.

## Adding Your Federal School Code to Receive Electronic Data

A school cannot make an electronic correction unless the school has been designated on the applicant transaction. You can add your federal school code to the list of schools receiving data electronically along with correcting other fields on the record by using the History Correction Record layout (CORR02IN).

Follow these steps to add your federal school code and/or to make corrections:

1. In the first position of the record, enter 2 to indicate that this is a correction to a 2001-2002 applicant transaction.

2. In positions 2 through 10, enter the applicant's original SSN. This is the number reported by the applicant on the initial FAFSA form and does not reflect any corrections to the SSN that might have been made.

3. In positions 11 and 12, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the initial FAFSA form and does not reflect any corrections to the last name that might have been made.

4. In positions 13 and 14, enter the transaction number of the applicant record being corrected. For example, enter 01 to correct the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at CPS. If the transaction number being corrected is not on the CPS database, the record will be rejected. You can use transaction 99 to add your school code to the most recent transaction on the CPS Database.

5. Enter 112 in positions 15 through 17 (corresponding to the SAR Field #112, the Data Release Number (DRN).)

6. Enter the student's DRN in the data field positions 18 to 52 (Remember to make it left justified, and leave any unused bytes blank.)

   **Note:** A unique DRN is assigned to each Title IV applicant. It appears only on paper SARs and ISIR records generated in response to electronic FAFSAs. If a valid DRN is not present on the correction record containing the federal school code change, the record is rejected.

7. Enter the SAR field number associated with the Federal School Code position being changed in positions 53 through 55. Possible field numbers are 086, 088, 090, 092, 094, and 096.

8. Enter the Federal School Code in the data field positions 56 to 61. Leave positions 62 to 90 blank.

   - The number can be changed only to the number of the participating Electronic Data Exchange (EDE) school. You also must enter this number in the EDE Federal School Code field, (position 471-476). If the codes in these two fields do not match, the record is rejected.
   - Schools may modify the Federal School Code and make other corrections to the applicant record on the same correction transaction.

9. Enter the date you created this record in positions 553-560, the EDE Transaction Receipt Date in CCYYMMDD format.

10. Enter 00001 in positions 575-579, the serial number field. If you exceed 12 corrected fields, create a new record. The serial number on the second record is also 00001. The serial number increments with a second student's record.

11. Enter an "H" for History Correction in position 580, Record Type.

## Tips for Corrections

When your school submits an ISIR correction to CPS, we use the specified transaction as a template. We make changes to the fields you indicated, leaving other fields unchanged. Your federal school code does not have to be the first college choice on the transaction to be processed by CPS. You receive the processed results in the CORR02OP message class; all other schools listed on the transaction will receive the new ISIR in the SARA02OP message class.

If you are submitting a Dependency Override or FAA Adjustment (professional judgment) as part of the correction record, only your school receives the resulting corrected transaction. Also, do not send a Dependency Override correction with a FAA Adjustment to a transaction without an EFC. If there is not an EFC, first send the Dependency Override with any other corrections necessary to obtain an EFC. Then, submit the FAA Adjustment to the transaction with the dependency override and the EFC.

## Requesting a Duplicate ISIR

Schools request duplicate ISIRs using the correction message class (CORR02IN). To see a full layout refer to the Record Layout Section under Duplicate Request Export Record Layout. Use the following steps to create a record requesting a duplicate ISIR:

1. In the first position of the record, enter 2 to indicate that this is a correction to a 2001-2002 applicant transaction.

2. In positions 15 through 17, enter 199. This signifies a request for an ISIR record. (Note: Leave positions 2 through 14 blank.)

3. In positions 18 through 26, enter the applicant's original Social Security Number (SSN). This is the number reported by the applicant on the initial FAFSA form and does not reflect any corrections to the SSN that might have been made.

4. In positions 27 and 28, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the initial FAFSA form and do not reflect any corrections to the last name that might have been made.

5. In positions 29 and 30, enter the transaction number of the applicant record being requested. For example, enter 01 to request the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at CPS. If the transaction number being requested is not on the CPS database, the record is rejected. You can use transaction '99' to request the most recent transaction on the CPS database provided your Federal School Code is listed on the most recent transaction.

6. In positions 471 through 476, enter your Federal School Code.

7. In positions 553 through 560, enter the Transaction Receipt Date, the date you are requesting the duplicate transactions.

8. In position 580, enter D (duplicate).

Up to twelve duplicate ISIRs can be requested on a single record. Repeat steps 2 and 3, using the remaining data fields of the layout to request more than one record. If more than twelve ISIRs are required, then create an additional record by repeating steps 1 through 6.

**Note:** The school can request, as a duplicate, any existing transaction for a student as long as that transaction number contains the school's Federal School Code. Transaction 99 can be used as described in step 5 above. If the latest transaction on the CPS database does not include that school, the request is rejected.

## Response to a Correction/Duplicate Record

Schools receive one batch of ISIRs for each batch of correction records submitted. The batch, or message class, of ISIRs is titled CORR02OP. It contains one ISIR for every submitted student correction or student duplicate request, not rejected for a transaction reject reason.

### *Rejected Correction/Duplicate Records*

There are two categories of rejections for submitted correction records: transaction and compute rejects.

**1. Transaction Rejects**

A transaction reject prevents the correction record from being applied to the student's record. If a record is rejected for one or more reasons, the school receives an error report in message class CORE02OP (see layout in the Record Layouts Section). No ISIR is created.

**2. Compute Rejects**

CPS contains a series of edits that evaluate all incoming FAFSA and correction data for consistency and completeness. These edits apply to all data from electronic, web, and paper input. An Expected Family Contribution (EFC) is not computed for a correction rejected for a compute reject reason. However, an ISIR is produced. Correction and duplicate ISIRs with a compute reject are returned in the CORR02OP message class. The reasons for the compute reject are coded on the ISIR. Refer to the Processing Codes/System Requirements Section for information on interpreting these reject codes.

There are two types of FAFSA compute reject reason codes, numeric and alphabetic:

- Numeric: certain data items must be CORRECTED before a valid ISIR can be generated (Non-Verifiable).

- Alphabetic: certain data items must be either CORRECTED or VERIFIED before a valid ISIR can be generated (Verifiable). An alphabetic reject reason code is a verifiable data element, meaning the data given is questionable but could be correct.

In the paper system, a student can verify a data field by re-entering the same information in the SAR correction column for the field in question. In the electronic process, the school may verify the data (reenter the data as a "correction"), or set the appropriate reject override, (found at the end of the CORR02IN record layout in positions 527-535) and transmit the correction record to CPS. Data that must be verified or corrected in response to each reject reason is provided in the Processing Codes/System Requirements Section.

A student's record may not have an EFC if the record contains questionable data and has an FAFSA reject reason code(s). The reject reason codes are found in positions 610-623 on the ISIR. They explain the questionable and highlighted field(s).

## CPS Header and Trailer Records

Data transmitted through the SAIG are separated by message class for identification and processing purposes. Each message class consists of the following segments:

- Header record
- Data record(s)
- Trailer record

Data records vary by processing function. Each record format is provided in the Record Layout Section of this Technical Reference.

**Note:** You can find additional information on Renewal Application requests in the Overview Section and in the Electronic Renewal FAFSA information printed earlier in this section. You can also find information on Renewal Application requests in Action Letter # 1, published in July 2000, and Action Letter #2, published in September 2000.

Each batch of data records must be preceded by a header record and followed by a trailer record. The end of each record (header, trailer, and data) is marked by a CR/LF (carriage return/linefeed, ASCII 13, 10). An EOF marker (end of file, ACSII 26) is optional.

The format and content of header and trailer records are found in the Record Layout Section:

- Received from the Central Processing System (CPS) message header and trailer records – those records produced by CPS to send to the destination point such as SARA02OP.

- Sent to CPS message header and trailer records –those records produced by the destination point to send to CPS, such as CORR02IN messages.

***Note the following about batch headers and trailers:***

- The header and trailer records are the same lengths as the detail (data) records.

- Only data records of the same type (e.g., renewal FAFSAs) and the same year can be batched together. (There is one exception – Corrections and Duplicates can be batched together.)

- The Counts in the trailer are for the number of student records, not the number of data records.

***Note the following about batch numbers:***

- Destination points are responsible for supplying a unique batch number on the header and trailer records sent to CPS.

- The structure of the 23-character unique batch number is as follows:

  #X2ZZZZZZCCYYMMDDHHMMSS where,
  #X = the record type indicator,
  with a pound sign (#) followed by the character below to signify the record type:

  A = Electronic App ISIRs
  B = Renewal App ISIRs
  C = Correction/Duplicate ISIRs
  E = Automatic ISIRs
  F = Federal Data Requests
  G = System Generated
  I = Year To Date (YTD)

K = State Agency Non Resident ISIRs
L = State Agency Resident ISIRs
S = Signature Corrections
Y = Reprocessed Records
Z = CPS System Generated

2 = year indicator (always “2” for 2001-2002 data)

ZZZZZZ = the 6-digit valid Federal School Code

CCYYMMDD = the current date in century, year, month, day format

HHMMSS = the current time in hours, minutes, seconds format

*Example*:
A batch number of #C2E1234520010509141532 signifies a batch of 2001-2002 corrections transmitted to CPS from a school with a 6-digit code of E12345 on May 9, 2001 at 2:15:32 PM.

- Batch level errors can be found in Section 4 under Batch Level Error Messages

**Note:** Non-unique batch numbers are considered a duplicate batch and are not processed by CPS.

# Processing Codes/System Requirements

This section provides charts and tables that include an explanation of the different reject codes and how to respond to each. Other tables provide information that further explains other processing codes associated with the CPS EDE process.

# Summary of Tables

In this section, you will find several tables to assist you when reviewing files.

## 2000-2001/2001-2002 ISIR Cross-Reference

This table is a cross reference of the 2000-2001 Institutional Student Information Record (ISIR) field number, start position, and end position with the 2001-2002 ISIR field number, start position, and end position. It also lists valid field content for the field that has changed from the last year.

## Table of Reject Codes and How to Respond to Each

This table is used to determine the meaning of each reject code possible on a Student Aid Report (SAR) or ISIR. The table also outlines how to correct each reject and references comment codes associated with the rejects.

## Batch Level Error Messages

This table associates reject codes at the batch level and includes the text for that reject code, a description of the error and a resolution. These error messages indicate that the batch was not processed. The structure of the file was not valid and the Central Processing System (CPS) was not able to process the file. You will need to reformat the file appropriately and again send it to the CPS for processing. No Institutional Student Information Records (ISIRs) will be generated when there is a Batch level error.

## Record Level Error Messages

This table reports the record level reject codes. The actual text for each reject code, a description of the error and a resolution for each error is listed. These error messages indicate that the individual student record was not processed. Any student record in the batch, which does not receive a record level error message, results in a processed ISIR for that student. (Those ISIRs will be sent back later in another file.) You will need to fix any student record with a record level error message and send it to the CPS again for processing so an ISIR will be generated.

## Assumption Overrides

This table associates the override codes with the assumption being made. It also explains what will happen if you use this code and an example of when you would use this code.

## SAR/ISIR Correction Flags and Correction/Highlight Field Numbers

This table is used to determine which fields were corrected in the previous transaction or which fields are highlighted on the ISIR. It also defines the field positions for the SAR field, the FAFSA field name, and the question number on the FAFSA.

## NSLDS Loan Program Codes

These codes are used to determine the loan program code on up to 12 loans in the NSLDS portion of the ISIR.

## Current Status Codes

These codes are used to determine the current status on up to 12 loans in the NSLDS portion of the ISIR.

## State/Country/Jurisdiction Codes

This table is used to determine the valid state abbreviations used for Student's Permanent State, Student's Driver's License State Code and for Student and Parent State of Legal Residence.

## Correction Data Entry Specifications

This table is used in conjunction with the History Correction Export Record Layout found in the Record Layout section. This table defines the SAR field number and field length. It defines what data is valid to send for each SAR field on a correction record. The table also indicates if the SAR field is a signed value, the justification of the SAR field, and if the field can be corrected to blank.

## ISIR Comment Codes and Text

This table associates ISIR comment codes with the text for the code. It will also indicate if the comment code sets the C code, which indicates that a school resolution is required. The table also indicates if a reject code is associated with a particular comment code. This table is helpful when resolving SAR/ISIR rejects as it highlights the comments to which you should pay special attention.

### *2001-2002 SAR/ISIR COMMENT CODE CROSS - REFERENCE TABLE*

***This table lists all of the CPS comment codes, a definition for each code that indicates the action causing the comment code to be set, and whether there is text associated with the comment code to print on the SAR or the ISIR.***

| 052 | | | Your answer to “Drug Conviction Affecting Eligibility?” has changed since you filed your initial application. |
| 053 | | | You left “Drug Conviction Affecting Eligibility?” blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid. |
| 054 | Y | | You reported a '2' in response to “Drug Conviction Affecting Eligibility?”. This indicates that you are ineligible for federal student aid for part of the 2001-2002 school year. ## 2001-2002 SAR/ISIR Comment Code Cross-Reference

Beginning in the 2001-2002 processing year, comment codes will be set by the CPS on the student's transaction to provide information to you in the Financial Aid Office, but will not cause text to print on either the SAR or the ISIR. The comment codes are as follows:

002; 011; 012; 014; 015; 017; 019; 022; 025; 027; 029; 032; 034; 035; 036; 088; 091; 092; 093; 096; 098; 119; 121; 122; 123; 126; 131; 137; 140; 153; 164; and 165.

The following table lists of all the CPS comment codes, a definition for each code that indicates the action causing the comment code to be set; and whether there is text associated with the comment code to print on the SAR or the ISIR.

For example, comment code 002 is turned on by the CPS when the Early Analysis Flag is set on the student's transaction (ISIR field #116 = 1). The code will be included with all other comments codes on the ISIR layout (in ISIR field #261 - Comment Codes). However, there is no associated text to print on the student's ISIR.

Comment codes not in use for 2001-2002 are identified with a definition of "Not Used".

# Printing

## Printing ISIRs

The following information assists the institution or state agency in printing the data on a received Institutional Student Information Record (ISIR):

- Assumed Values
- Correction Flags
- Highlight Flags
- Rejected ISIRs
- Comments
- Field Types

### Printing Assumed Values

"Assumed Values" reflect suppositions the Central Processing System (CPS) has made in determining the applicant's Expected Family Contribution (EFC). CPS makes assumptions when the applicant does not report certain information that is necessary for the EFC calculation or when the applicant reports inconsistent information. (Some unreported information will result in a rejected transaction rather than assumptions.) CPS uses the assumed value when calculating the EFC.

For certain fields, the only assumption CPS ever makes is zero so these assumption fields on the ISIR will contain zeros (for example, ISIR field 240, Assumed Student's U.S. Tax Paid). On the ISIR, an asterisk (*) will print to the left of the field title to indicate that the CPS made an assumption and the assumed value must print in place of the reported value.

If a field is both assumed and highlighted, an asterisk (*) must be printed to the left of the field title. Positions 1370-1458 of the ISIR all contain CPS assumption fields.

## Printing Correction Flags

Correction Flags on the ISIR (positions 692-811 on the ISIR layout) indicate changes to FAFSA data processed by the CPS. Refer to the SAR/ISIR Correction Flags and Correction/Highlight Field Numbers table in section 4.

If a field was corrected on the current transaction, the correction flag will contain a value of 1. If a field was corrected on a previous transaction, the correction flag will contain a value of 2. All other correction flag fields will have a value of zero.

On the ISIR, a pound sign (#) must print to the right of the field variable that was corrected on the most current transaction, an at sign (@) must print to the right of the field variable that was corrected on a previous transaction.

Correction flags are cumulative (i.e., the flag will be carried on all subsequent transactions).

## Printing Highlight Flags

Highlight Flags on the ISIR (positions 812-931 on the ISIR layout) indicate data highlighted in bold face on the Student Aid Report (SAR), based on FAFSA data processed by the CPS. Refer to the SAR/ISIR Correction Flags and Correction/Highlight Field Numbers table in Section 4. These fields are highlighted and provide a comparison reference between the SAR question number and ISIR field positions.

Any field containing a highlight flag will have a value of 1. All other highlight flag fields have a value of zero.

On the ISIR, the letter ‘h’ must print to the left of the field title that was highlighted. If the field is both highlighted and assumed, an asterisk (*) must print to the left of the field title.

## Rejected ISIRs

Applications and corrections submitted to CPS, regardless of the input type or source, can be rejected for incomplete, illogical, or inconsistent data.

An EFC will not be computed for a rejected application transaction. Transactions can be rejected for multiple reasons. Up to seven two-digit reject reason codes are carried on the ISIR.

The reject reason codes and resolution in response to each reject reason are described in a table in the Processing Codes/System Requirements Section.

## Comments

Up to 20 three-digit numbers can appear on the ISIR record, indicating which comments would appear on Part One of a SAR from any paper application processor.

Some comments contain critical information regarding the student's status. The comment text and associated three-digit comment codes appear in the Processing Codes/System Requirements Section.

## Field Types

Fields can contain one of three types of data: character, numeric (N), or signed numeric (S/N). All 9s in a field indicate that the reported or calculated value is greater than or equal to the value of all 9s. Blanks are allowable in some S/N and N fields.

With signed numeric fields, the sign is always implied in the right most character of the field. For example, if the Student's Adjusted Gross Income field contains a value of negative 3507, it would appear as 00350P. The following chart explains the conversion of the sign and the number:

Signed Numeric Fields:

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| { | +0 | E | +5 | } | -0 | N | -5 |
| A | +1 | F | +6 | J | -1 | 0 | -6 |
| B | +2 | G | +7 | K | -2 | P | -7 |
| C | +3 | H | +8 | L | -3 | Q | -8 |
| D | +4 | I | +9 | M | -4 | R | -9 |

**Note**: All signed fields will have an extra byte printed.

## Printing the ISIR

An ISIR must be printed according to the ED-specified format. You may develop your own software to print ISIRs. The ED-specified format and printing specifications are found on the following pages. One format is printed per selected applicant, regardless of the student's dependency status.

The printed ISIR is two pages. Specifications for printing the ISIR follow the format. For each relevant data element, the specifications identify how codes on the record should be translated for printing on the ISIR. For example, if the Student's Citizenship Status on the ISIR record equals 1, "U.S. CITIZEN" must be printed for Citizenship Status.

## Printing the Renewal FAFSA

Renewal Applications for Windows provides institutions with the ability to print Renewal FAFSAs for returning students based upon 2000-2001 Renewal FAFSA Data (RAD) received from the CPS. Institutions, however, may choose to develop their own software to print Renewal FAFSAs. EDExpress does not provide the Renewal FAFSA print any longer.

The required format for the Renewal FAFSA are provided to software developers and are found at the conclusion of this section. Specifications for printing the Renewal FAFSA follow the format. For each relevant data element, the specifications identify how codes on the RAD record should be translated for printing on the Renewal FAFSA. For example, if the Student's Marital Status code on the RAD record equals 2, "MARRIED/REMARRIED" must be printed for the Student's Marital Status.

With two exceptions, all data printed on the Renewal FAFSA will originate from the RAD file requested by the user from the CPS. The institution must print (1) its own name and (2) the Federal School Code in the upper left corner of the first page of the Renewal FAFSA.

If an assumption was made during the 2000-2001 processing, the assumed value will be carried on the 2001-2002 RAD file and printed on the Renewal FAFSA.

There are 10 fields that can have an assumed value. Each of the 10 fields will have a one-position flag on the RAD record (positions 378-387). If a flag is set to 1, an asterisk (*) must print to the left of the appropriate field value on the Renewal FAFSA, indicating the printed value was assumed. The 10 fields are noted on the print specifications that follow.

One format is printed per selected applicant, regardless of the student's dependency status.

The Renewal FAFSA is four pages in length. Pages one through three display RAD from 2000-2001 and collect updates for 2001-2002. Page four is the Certification and Signature page. An optional page five is available for a preparer's information.

Read this letter carefully and review each item on this Institutional Student Information Record (ISIR). You may submit corrections to the information by following the instructions given to you by your Financial Aid Administrator (FAA).

If all the information on this ISIR is correct, you may be eligible to receive a Federal Pell Grant and other federal student aid in 2001-2002. Your FAA will determine whether you meet all eligibility requirements to receive aid. The amount of aid will depend on the cost of attendance at your school, your enrollment status (full-time, three-quarter-time, half-time, or less than half-time), Congressional budget restrictions, and other factors.

HERE IS WHAT YOU NEED TO DO NOW: Review the information on this ISIR. If any of the information is incorrect, make corrections by following the instructions given to you by your FAA. IF ALL THE INFORMATION IS CORRECT, you do not need to submit the ISIR to the schools you listed. All schools listed will receive the information electronically.

As we indicated on your previous ISIR, your application has been selected for review in a process called verification. If you have not already been instructed, your school will instruct you to provide certain financial documents.

Your citizenship status has been confirmed by the Immigration and Naturalization Service (INS), and you meet the citizenship requirements for federal student aid.

Selective Service confirmed your registration or your exemption status.

Your application record was compared with the National Student Loan Data System (NSLDS). However, no financial aid history information was found for printing on your ISIR.

Sort and print NSLDS Loan Detail information in ascending order by NSLDS Loan Sequence Number (01 through 12). Repeat the format shown in the following table for each NSLDS loan. Print this information for up to twelve NSLDS loans. Skip one line before printing the data for each NSLDS Loan. Print only five loans on the first NSLDS page.

If the entire Loan Detail Section does not fit on the first page, print the details for the loans that fit on the first page (keep the data for each loan together/print the details for each loan in groups of three lines). Then go to the next page and print the Loan Detail Section column headings (shown in the above table) under the header, skip a line, then print the remaining NSLDS loan data Continue to skip a line between each loan.

OMB No. 1845-0001

RHELLO I SUBRAMANIAN
120 17th ST. S.W.CEDAR RAPIDS, IA 52444

READ THESE INSTRUCTIONS BEFORE YOU BEGIN.
You can use this Renewal Application to apply for Federal student aid for 2001-2002. Or you can file your Renewal Application on the Internet at http://www.fafsa.ed.gov beginning January 2, 2001.
Your 2000-2001 information is printed next to the questions. Use the spaces provided in the 2001-2002 column only if you need to write in new answers, or to correct information from 2000-2001. Questions with arrows require new answers.

**Print legibly, using capital letters and block numbers. Use black ink.**
**Erase or white-out mistakes completely.**
**If an answer is zero, write in "0". If the question does not apply, leave it blank**
**An asterisk (*) next to a question number means we assumed an answer.**

# Optional Testing with the Central Processing System

The certification testing process is optional for all Electronic Data Exchange participants. Testing is available for schools that choose not to use the EDExpress software to create history corrections. This testing can take place after all enrollment forms for Title IV WAN have been filled out and submitted and the network connectivity test has been completed. You can receive the 50 test ISIR records by calling the number listed below.

1. To begin the process users will need to contact CPS Customer Service at 800-330-5947.
2. CPS will then send a file containing 50 test ISIRs to the user's mailbox.
3. The ISIR file will need to be downloaded from the Student Aid Internet Gateway (SAIG) network and brought into the user's system.
4. Print a sample of these ISIRs to verify that this process has worked successfully.
5. Make corrections to the 10 ISIRs specified on the following pages. This will entail entering changes to various fields on student records and saving these revisions.
6. Once all updates are entered, the user's system should batch up the corrections into a CORR02IN.DAT file that the user will need to transmit via the SAIG to CPS.
7. Within 3 days, a representative from CPS will contact the user with the results of the test. If there were errors with the correction file, you will want to make the appropriate changes suggested to your system and then resubmit the full correction file again.

**Note to 3rd Party Vendors and Custom System Participants:** The test cases mentioned above can be used to test your systems. Simply call CPS Customer Service and request the 50 test cases be placed in your SAIG mailbox. Ten of the 50 test cases have been run through the compute process of the CPS and are "realistic" scenarios of student paper applications. The history correction cases provided on the subsequent pages are corrections to these 10 ISIRs. Copies of the 10 printed ISIRs are provided in this section for reference purposes.

## History Correction Test Cases

To better assist in testing the history correction process, 10 of the 50 test ISIR records, which you can receive from the Central Processing System (CPS), have been run through the CPS compute process. The following history test cases can be used as stand-alone corrections (those without an ISIR on file) or corrections to the corresponding ISIR in the test file. Use the following correction cases to test the history correction process with the CPS or to test vendor software correction processing:

You left "Drug Conviction Affecting Eligibility?" blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid.

There are issues with your application information that need to be resolved before your eligibility can be determined. Read this letter carefully for specific information. After making all necessary corrections, you and your parent must return all documentation to your school.

It appears that the social security number you reported on your application is not valid.

You did not provide the complete social security number and name for your parent(s).

If you need additional help with your ISIR, contact your school Financial Aid Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID (1-800-433-3243). If your address changes, contact your school or call 1-800-4FED-AID to make the correction on your record.

You left "Drug Conviction Affecting Eligibility?" blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid.

Based on the information we have on record for you, your EFC is 50254. Your school will use this number to determine what types of aid and how much you are eligible for. You are not eligible for a Federal Pell Grant but you may be eligible for other aid.

Your school will ask you to provide copies of certain financial documents for you (and your spouse).

If you need additional help with your ISIR, contact your school Financial Aid Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID (1-800-433-3243). If your address changes, contact your school or call 1-800-4FED-AID to make the correction on your record.

By signing below, you certify that all the information on this form is true and complete to the best of your knowledge. If asked, you agree to give proof of the information, which may include a copy of your U.S. or state income tax form. If you purposely give false or misleading information, you may be fined $10,000, sent to prison, or both. You also certify that:

> you will use any federal student financial aid funds received during the award year covered by this application solely for educational expenses related to attendance during that year at the institution of higher education that determined eligibility for those funds;

> you are not in default on a Title IV educational loan, or you have repaid or made satisfactory arrangements to repay your loan if you are in default;

> you do not owe an overpayment on a Title IV educational grant, or you have made satisfactory arrangement to repay that overpayment; and

> you will notify your school if you do owe an overpayment or are in default.

Everyone whose information is given on this form should sign below. The student (and at least one parent, if parent information is given) MUST sign below.

You left "Drug Conviction Affecting Eligibility?" blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid.

Based on the information we have on record for you, your EFC is 99999. Your school will use this number to determine what types of aid and how much you are eligible for. You are not eligible for a Federal Pell Grant but you may be eligible for other aid.

We assumed certain information to calculate your eligibility for federal student aid. We printed an asterisk (*) next to the items containing assumed information. If our assumptions are correct, do not change them.

If you have now filed your 2000 tax return, correct this ISIR to reflect the information as reported on your tax return. If you still haven't filed, notify your Financial Aid Administrator once you file.

Be sure to review the items marked with an "h" or an "*" on your ISIR and make corrections if necessary.

You reported that you will either have a bachelor's degree by July 1, 2001 or you will be working on a degree beyond a bachelor's degree. Graduate students are eligible for most types of federal aid, but generally not the Federal Pell Grant.

If you need additional help with your ISIR, contact your school Financial Aid Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID (1-800-433-3243). If your address changes, contact your school or call 1-800-4FED-AID to make the correction on your record.

By signing below, you certify that all the information on this form is true and complete to the best of your knowledge. If asked, you agree to give proof of the information, which may include a copy of your U.S. or state income tax form. If you purposely give false or misleading information, you may be fined $10,000, sent to prison, or both. You also certify that:

> you will use any federal student financial aid funds received during the award year covered by this application solely for educational expenses related to attendance during that year at the institution of higher education that determined eligibility for those funds;

> you are not in default on a Title IV educational loan, or you have repaid or made satisfactory arrangements to repay your loan if you are in default;

> you do not owe an overpayment on a Title IV educational grant, or you have made satisfactory arrangement to repay that overpayment; and

> you will notify your school if you do owe an overpayment or are in default.

Everyone whose information is given on this form should sign below. The student (and at least one parent, if parent information is given) MUST sign below.

You left "Drug Conviction Affecting Eligibility?" blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid.

There are issues with your application information that need to be resolved before your eligibility can be determined. Read this letter carefully for specific information. After making all necessary corrections, you and your parent must return all documentation to your school.

It appears that the social security number you reported on your application is not valid.

You did not provide the complete social security number and name for your parent(s).

You reported that you will either have a bachelor's degree by July 1, 2001 or you will be working on a degree beyond a bachelor's degree. Graduate students are eligible for most types of federal aid, but generally not the Federal Pell Grant.

If you need additional help with your ISIR, contact your school Financial Aid Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID (1-800-433-3243). If your address changes, contact your school or call 1-800-4FED-AID to make the correction on your record.

You left "Drug Conviction Affecting Eligibility?" blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid.

Based on the information we have on record for you, your EFC is 0. Your school will use this number to determine what types of aid and how much you are eligible for. You may be eligible to receive a Federal Pell Grant and other federal student aid.

Your school will ask you to provide copies of certain financial documents for you (and your spouse).

If you need additional help with your ISIR, contact your school Financial Aid Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID (1-800-433-3243). If your address changes, contact your school or call 1-800-4FED-AID to make the correction on your record.

You left "Drug Conviction Affecting Eligibility?" blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid.

Based on the information we have on record for you, your EFC is 56791. Your school will use this number to determine what types of aid and how much you are eligible for. You are not eligible for a Federal Pell Grant but you may be eligible for other aid.

Your school will ask you to provide copies of certain financial documents for you (and your spouse).

We assumed certain information to calculate your eligibility for federal student aid. We printed an asterisk (*) next to the items containing assumed information. If our assumptions are correct, do not change them.

Be sure to review the items marked with an "h" or an "*" on your ISIR and make corrections if necessary.

If you need additional help with your ISIR, contact your school Financial Aid Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID (1-800-433-3243). If your address changes, contact your school or call 1-800-4FED-AID to make the correction on your record.

You left "Drug Conviction Affecting Eligibility?" blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid.

Based on the information we have on record for you, your EFC is 0. Your school will use this number to determine what types of aid and how much you are eligible for. You may be eligible to receive a Federal Pell Grant and other federal student aid.

We assumed certain information to calculate your eligibility for federal student aid. We printed an asterisk (*) next to the items containing assumed information. If our assumptions are correct, do not change them.

Be sure to review the items marked with an "h" or an "*" on your ISIR and make corrections if necessary.

You did not provide the complete social security number and name for your parent(s).

If you need additional help with your ISIR, contact your school Financial Aid Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID (1-800-433-3243). If your address changes, contact your school or call 1-800-4FED-AID to make the correction on your record.

You left "Drug Conviction Affecting Eligibility?" blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid.

There are issues with your application information that need to be resolved before your eligibility can be determined. Read this letter carefully for specific information. After making all necessary corrections, you must return all documentation to your school.

We recently received a student aid application with an incomplete name from this address. The applicant should review the ISIR and provide his or her full name. If the applicant does not have both a first and a last name, contact your FAA for assistance.

You reported that you will either have a bachelor's degree by July 1, 2001 or you will be working on a degree beyond a bachelor's degree. Graduate students are eligible for most types of federal aid, but generally not the Federal Pell Grant.

If you need additional help with your ISIR, contact your school Financial Aid Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID (1-800-433-3243). If your address changes, contact your school or call 1-800-4FED-AID to make the correction on your record.

You left "Drug Conviction Affecting Eligibility?" blank. IF YOU HAVE A DRUG CONVICTION, you MUST answer this question. Your failure to accurately answer this question could result in legal action against you by the U.S. Government. Use the enclosed worksheet to determine your answer to this question. You can correct this item by calling 1-800-4FED-AID (1-800-433-3243) or by going to www.fafsa.ed.gov. You can also use this report. A drug conviction does not necessarily disqualify you from receiving student aid.

Based on the information we have on record for you, your EFC is 4739. Your school will use this number to determine what types of aid and how much you are eligible for. You are not eligible for a Federal Pell Grant but you may be eligible for other aid.

Your school will ask you to provide copies of certain financial documents for you (and your spouse).

If you need additional help with your ISIR, contact your school Financial Aid Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID (1-800-433-3243). If your address changes, contact your school or call 1-800-4FED-AID to make the correction on your record.
