COD School testing enables simpler, faster, and less costly issue identification and resolution in a low-volume, controlled test environment. It also allows Schools, Third-party Servicers, and Software Vendors the opportunity to make corrections or enhancements to software applications and processes prior to entering into the “live” production environment. The goal of COD School Testing is to make the transmission of production data smoother and reduce the risk of production problems.
Introduction

The COD School Testing Guide is intended for all Schools in the COD System.

Purpose

The purpose of COD School testing is to provide Schools, Third-party Servicers, and Software Vendors an opportunity to test Pell, Direct Loan, and the Teacher Education Assistance for College and Higher Education (TEACH) Grant business processes and system software with the COD System prior to the transmission and processing of actual production data. COD School testing will enable simpler, faster, and less costly issue identification and resolution in a low-volume, controlled test environment. It will also allow Schools, Third-party Servicers, and Software Vendors the opportunity to make corrections or enhancements to software applications and processes prior to entering into the “live” production environment. The goal of COD School Testing is to make the transmission of production data smoother and reduce the risk of production problems.
Scope

COD School Testing is divided into two distinct phases of testing for the upcoming award year. The testing environment will be updated with new code in conjunction with the next major release of COD.

- Phase I – Common Record Manual Verification
- Phase II – Structured Application Testing
- Phase III – Unstructured Testing

Each phase is described in more detail later in this document.

COD School Testing is available to all entities that participate in the COD process. Schools, Vendors or Third Party Servicers are not required to test with COD, but are encouraged to participate in Phase I testing. Schools, Vendors or Third Party Servicers should refer to the Volume V Section 2: COD School Test Cases document for more information. The test case document contains descriptions of the test data that Schools, Vendors or Third Party Servicers will send to and from COD, test execution guidelines, and structured test cases with multiple testing cycles.

Schools that use software from a Software Vendor and/or use a Third-party Servicer do not need to test with COD. The Software Vendors and Third-party Servicers can complete the test on behalf of their customers.

All entities that wish to participate in COD School Testing must submit a formal sign-up document (located at the end of this section) to the COD School Relations Center. It is the Schools choice as to how much of the test process they want to use. But a previous test phase must be completed before moving on to the next. (Example: Schools wishing to test to Phase II must first complete Phase I.)
Test Phase Descriptions

Phase I - Common Record Manual Verification

1. What is the purpose of Phase I testing?
The purpose of the Common Record Manual Verification testing is to ensure that the School’s, Vendors or Third Party Servicer’s XML Common Record is well formed and properly structured according to the rules of the new 4.0b XML Common Record Schema. The 4.0b schema documentation is available on the IFAP web site at: http://ifap.ed.gov/codxmlschema/CODXMLSchema4pt0b.html. This site also has direct links to the 4.0b schema XML code, the valid ranges XML code, and the change log. The COD team manually reviews a Common Record document e-mailed to the COD School Relations Center (CODSupport@ed.gov) by the School, Vendors or Third Party Servicers and assists the School, Vendors or Third Party Servicers in the identification of potential updates to their Common Record submissions. This testing does not validate the data submitted within the Common Record. For this phase of testing, only two student records should be sent in the Common Record.

2. Who should participate?
The Common Record Manual Verification phase of testing is available to all Schools, Vendors or Third Party Servicers.

3. When does Phase I testing take place?
Phase I testing is available from the beginning of January 2016 to October 7th 2016. Phase I testing is required for all Schools, Vendors or Third Party Servicers prior to participating in Phase II testing.

4. How do Schools, Vendors or Third Party Servicers sign up for Phase I testing?
Schools, Vendors or Third Party Servicers must complete a sign-up document in order to participate and schedule a testing window with the COD School Relations Center. The sign-up document is located at the end of this guide and on the COD web site, http://www.cod.ed.gov under the “COD Resources” link. The completed document must be e-mailed to CODSupport@ed.gov, Subject: “COD School Testing Sign-up”, or faxed to the COD School Relations Center, 1-877-623-5082.

5. What do Schools, Vendors or Third Party Servicers need to do when they complete Phase I testing?
Once Schools, Vendors or Third Party Servicers have completed Phase I and would like to continue on to Phase II testing, they must contact their COD School Testing Coordinator at COD School Relations Center to schedule a Phase II testing start date. A second sign-up document is not required to participate in Phase II testing.
Phase II - Structured Application Testing

1. What is the purpose of Phase II Testing?

The purpose of Phase II-Structured Application Testing is to ensure that Schools, Vendors or Third Party Servicers can send, receive, and process batches of records using specific input instructions with detailed expected results issued by COD. Schools, Vendors or Third Party Servicers use a test ISIR file supplied by COD that creates a test data set of students to use with the structured test cases. Schools, Vendors or Third Party Servicers cannot create their own student data to submit files during Phase II testing.

During this phase, Schools, Vendors or Third Party Servicers send Common Record documents to, and receive Common Record Response documents back from the COD School Testing mailbox. Schools, Vendors or Third Party Servicers must verify that these files can be loaded and processed correctly in their system.

2. Who should participate?

All Schools, Vendors or Third Party Servicers that have completed Phase I (Manual Verification) testing. Phase II is for schools who want to submit test common records for actual processing in the School Test environment. This would also allow Schools to test bringing in the response file they would get back from COD.

3. When does Phase II testing take place?

Phase II testing assists Schools, Vendors or Third Party Servicers in the identification of potential updates to their system before beginning actual processing for 2016-2017. Phase II is available from March 21st 2016 to November 4th 2016. If Schools, Vendors or Third Party Servicers complete Phase I prior to March 21st 2016 they must wait until the Phase II testing window opens.

4. How do Schools, Vendors or Third Party Servicers sign up for Phase II testing?

When Schools, Vendors or Third Party Servicers sign up for testing, they can select their desired test phases on the Sign-Up Document. If not selected during initial submission Schools, Vendors or Third Party Servicers that want to continue on to Phase II testing after completing Phase I can contact their Testing Coordinator at COD School Relations Center. A second sign-up document is not required to participate in Phase II testing.

5. What do Schools, Vendors or Third Party Servicers need to do when they complete Phase II testing?

Schools, Vendors or Third Party Servicers should notify their COD School Relations Testing Coordinator when they have completed testing. This will ensure that other Schools, Vendors or Third Party Servicers can begin their testing process in a timely fashion. If a School, Vendor or Third Party Servicer has shown no testing activity over a two week period, COD will assume your School, Vendors or Third Party Servicer
has completed Phase II of testing, unless you have notified COD otherwise.

6. **What do Schools, Vendors or Third Party Servicers need to do when they are ready to submit their first “live” batch?**

Schools, Vendors or Third Party Servicers should notify their COD School Testing Coordinator prior to submitting their first “live” batch into the production environment. The School Testing team will ensure the batch processes successfully, and notify the School, Vendor or Third Party Servicer of the results.
Phase III - Unstructured Testing

1. What is the purpose of Unstructured Testing?
The purpose of Unstructured Testing is to ensure that Schools, Vendors or Third Party Servicers can correctly create and submit all possible transactions needed for the future award year. Schools, Vendors or Third Party Servicers continue to use data supplied within a test ISIR file supplied by COD. Schools, Vendors or Third Party Servicers cannot create their own student data to submit files during the Unstructured Testing.

2. Who should participate in Unstructured Testing?
Schools, Vendors or Third Party Servicers that have participated in Phase I and Phase II of testing for the new award year set up, and wish to submit minor variations to the test cases such as adjustments to the person information, award amounts or disbursement amounts.

3. When does Unstructured Testing take place?
Unstructured Testing for 2016-2017 will be available from April 4th 2016 through December 16th 2016. This testing phase is optional.

4. How do Schools sign up for Unstructured Testing?
Schools that want to continue on to Unstructured testing after completing Phase II must contact the COD School Relations Center. A second sign-up document is not required to participate in Unstructured Testing.

5. What do Schools, Vendors or Third Party Servicers need to do when they complete Unstructured Testing?
Schools, Vendors or Third Party Servicers should notify the COD School Relations Center when they have completed testing. This will ensure that other Schools, Vendors or Third Party Servicers can begin their testing process in a timely fashion. If Schools, Vendors or Third Party Servicers have shown no testing activity over a two week period, COD will assume your School, Vendor or Third Party Servicer has completed Unstructured testing, unless you have notified COD otherwise.
Test Entry Criteria

In order to begin testing with COD, Schools, Vendors or Third Party Servicers need to complete the following steps:

- Complete a COD School Testing sign-up document (located at the end of this section). Upon completion, it should be submitted to the COD School Relations Center no later than September 9th 2016.

- Schedule individual testing date(s) specific for your School(s) for each testing phase. COD School Relations will contact you after the sign-up document is received.

- Be aware of your school’s COD Entity ID and other program IDs. If you are a Software Vendor or Third Party Servicer without COD Entity ID simply request Entity IDs for testing.

- Confirm your test plans and COD readiness. Contact COD School Relations when you are ready to submit.

- Install the latest version of the message class table from SAIG.

- Install and implement the 2016-2017 updates to the software applications.

- Develop a means of keeping testing data separated from production environment.

- Identify individuals at the School, Vendor or Third Party Servicer responsible for completing the COD School Testing process and exchange names with COD School Testing team.

- Complete Phase I Common Record Manual Verification Testing, prior to beginning Phase II Structure Application Testing.
**Test Exit Criteria**

The School and the COD School Relations Center should jointly determine when the School, Vendor and Third Party Servicer have successfully completed COD School testing. The School, Vendor and Third Party Servicer can select which processes to test and should continue testing until expected results are received. Once the expected results are received, the School can consider testing successful. There is no pre-defined “end” of the test, other than the published end dates for each phase of COD School Testing.

A School, Vendor or Third Party Servicer is considered to have completed testing with COD once any of the following steps are completed:

- It has been determined that the School, Vendor or Third Party Servicer has been able to satisfactorily complete the desired test scenarios by achieving the expected results.
- School, Vendor or Third Party Servicer has chosen to discontinue School Testing prior to completing all the desired test scenarios if the expected results have been achieved.
- School, Vendor or Third Party Servicer has contacted the COD School Relations Center to verify the test results.
- School, Vendor or Third Party Servicer has successfully sent a “live” batch into the COD Production environment.
- Testing phase window closes prior to test completion by School.

**Testing Completion Clean Up**

In order to begin the production phase, all test data **MUST** be removed from the participating School Vendor or Third Party Servicer systems. Before submission of production data, Schools, Vendors or Third Party Servicers should also ensure that files are sent using the proper production message classes and production destination mailbox.
Test Data

The Test Data section explains test data requirements for Phase II-Structure Application Testing. More detail about the test cases can be found in the COD Test Cases document located in Volume V, Section 2-COD Test Cases document of the 2016-2017 COD Technical Reference.

Common Record Test Data

COD provides an actual CPS test data ISIR file for all test phases to each participating School, Vendor and Third Party Servicer via e-mail in an attached Zip file. Each School, Vendor and Third Party Servicer processes the ISIR data that COD provides and generates student award transactions using its normal awarding process. Schools, Vendors and Third Party Servicers are required to send this file to COD using the normal SAIG processing protocols with the exception of using the COD School Testing message classes and the COD School Testing destination mailbox located in the Volume V, Section 2: COD Test Cases document.

Upon receiving a Common Record in XML format, the COD System performs an immediate check to determine if the Common Record is readable. If the Common Record is readable and complies with the XML schema, the COD System processes the file. COD does not return a Response for records that are not readable or does not comply with the XML schema. After the COD System confirms the Common Record is readable and complies with the XML schema, the COD System classifies the record to determine how it will be processed. Schema 4.0a and 4.0b Common Records will be processed with full validation enforced. Common Records that have schemas later than 3.0c will go through partial validation. Schema 3.0c and older schemas will be entirely rejected. School Test will expect Schools to submit schema 4.0b common records. Once the data has been processed, Schools, Vendors and Third Party Servicers will receive a Response file indicating the results of each record submitted. If a record rejects, the response file indicates which data element(s) have rejected. Rejected records can then be corrected and resubmitted.

When processing records within the COD test environment, the anticipated time from record submission to Response file is approximately two business days. If a School, Vendor or Third Party Servicer has not received a Response within two days of submitting the test file, they should contact their School Testing Coordinator at the COD School Relations Center.
Testing Message Classes

Common Record message classes are year specific and are to be used from year to year in the production environment. However, different test message classes must be used for testing. During Phase II and Unstructured testing, Schools must use the following message classes when sending in Common Records for testing:

**Common Record Test Message Classes**

<table>
<thead>
<tr>
<th>Common Record Documents sent from School to COD</th>
<th>CRTESTIN</th>
</tr>
</thead>
<tbody>
<tr>
<td>Responses sent from COD to School</td>
<td>CRTESTOP</td>
</tr>
</tbody>
</table>
School Testing Sign-Up Process

Schools, Vendors and Third Party Servicers register for COD testing by completing the sign-up document located at the end of this School Testing Guide and submitting it to the COD School Relations Center. Once the COD School Relations Center has received the sign-up document from the School a confirmation letter will be sent to the School, via e-mail, verifying that their sign-up document was received. Once the sign-up document has been processed, the COD School Relations Center will send the School a Readiness letter, via e-mail, to provide additional information needed to begin testing such as the testing Entity ID Number to be used by the School, Vendor or Third Party Servicer, the assigned testing start date, and the name of the School Testing Coordinator assigned to the School, Vendor or Third Party Servicer. A new Readiness letter will be sent to the School, via e-mail, for each specified phase of testing.

The COD School Relations Center can be contacted by dialing:

- (800) 474-7268, for Grants
- (800) 848-0978, for Direct Loans

When calling, ask for COD School Testing Support, or send e-mail to CODSupport@ed.gov with the subject line “COD School Testing Support”.

Contact Names

Each School participating in COD testing notifies the COD School Relations Center of their designated contact person on the testing sign-up document. The contact person should be consistent for the period of time before, during, and upon completion of the test. This person should be a technically oriented staff member who is very knowledgeable about the School’s financial aid system. This person should be available to assist in problem analysis and to coordinate any follow-up tests that may be required. If a School uses a Third-party Servicer and the Servicer is conducting the test on behalf of the School, the COD School Relations Center needs the name and telephone number of the Servicer contact person.
**Scheduling**

The School Testing sign-up document must be completed and e-mailed or faxed to the COD School Relations Center by the appropriate deadline shown below:

- The deadline to sign up for COD Testing is September 9th 2016.

When a School submits their School Testing sign-up document, the School is contacted by the COD School Relations Center to schedule testing dates within each phase of testing.

**Support Services**

While a School, Vendor and Third Party Servicer are going through testing, there are many support sources available for assistance, as listed below:

**School Support Services**

<table>

Resource Planning

Hardware/Software

Schools should have all hardware and software capabilities ready before testing. Each School should have all upgrades installed from vendors or regulatory releases for 2016-2017.

Roles and Responsibilities

A collaborative effort between participating Schools, Vendors, Third Party Servicers and the COD School Relations Center is necessary for COD School testing to be completed successfully. The expected roles and responsibilities of each entity are described below:

Schools, Vendors, and Third-Party Servicers

Schools, Vendors and Third Party Servicers are responsible for completing the following steps associated with COD School Testing:

- Review all COD School Testing documentation posted on the IFAP web site.
- Review the COD Implementation Guide and Common Record Layout in the COD Technical Reference.
- Review all documentation that is e-mailed to the participating School (if applicable).
- Review the 2016-2017 Award Year Pell Payment Schedule released in January 2016.
- Schedule testing date with the COD School Relations Center using the sign-up document (preferably returned via e-mail).
- Prepare a test environment for COD School Testing that uses the test destination mailbox, test message classes, and the test Entity ID.
- Prepare test data to execute the Structured COD School Testing scripts for submissions.
- Send the test data to COD via the SAIG.
- Retrieve Responses from COD via the SAIG.
- Process Responses/acknowledgements.
- Communicate results with the COD School Relations Center.
- Once testing is completed, remove all data from the School, Vendor, and Third Party environment.
COD School Relations Center

The COD School Relations Center provides the following support during testing:

- Provide and process COD School Testing sign-up documents.
- Schedule specific test dates for Schools, Vendors, and Third Party Servicers.
- Provide Schools, Vendors, and Third Party Servicers with their own testing Entity ID to use only during a specific testing phase (if needed).
- Process submitted data.
- Send Responses via the SAIG.
- Update Schools, Vendors, and Third Party Servicers of their testing status.
- Assist with issue identification and resolution.
- Provide testing technical guidance.
Lessons Learned from 2015-2016

Schools, Vendors and Third Party Servicers that participated in COD School Testing for 2015-2016 provided COD with feedback on their experience. The following sections provide you with insight as to what Schools, Vendors and Third Party Servicers should test, how to prepare and, how to schedule testing within your institution.

Should I participate in School Testing?

- All Software Vendors, Third Party Servicers and Schools that use a homegrown or mainframe system are encouraged to test their software with the COD System prior to submitting production data.

- FSA ensures that EDExpress is extensively tested each year with COD prior to its annual release(s) to the Schools. Schools using EDExpress software do not need to test with the COD System.

- Schools that use a Software Vendor product do not need to test with the COD System, since most Software Vendors test with COD on their Schools behalf’s. This will help minimize the need for Schools to retest with COD.

- New Schools to Title IV Financial Aid, that are not using EDExpress or another Software Vendor product, are also encouraged to test with COD.

How do I prepare for School Testing?

Before you begin testing, Schools should:

- Establish a separate testing environment to keep production data separate from their testing data. Production operations of prior award years and COD School Testing need to be able to occur in parallel without interference.

- Signup for testing in advance to allow for adequate setup time before you are ready to begin testing. COD has considerable setup work to set-up each testing participant to ensure a successful test.

- Identify a strategy for loading the provided fictitious test students several weeks prior to Phase I testing. Schools can either manually enter the fictitious test students into their testing environment or accept the simulated CPS ISIR file provided via email by COD.

What can I expect during School Testing?

- Plan to test and start early in the testing window. **DO NOT** wait till the end of the testing window to sign-up or begin testing. Allow and plan time for retesting with the COD system.

- Plan and allow time to encounter possible issues and errors, and expect time delays during the resolution process.

- Schools should be very careful to send test files to the correct SAIG mailbox and to use the correct SAIG testing message classes to avoid accidentally submitting test data to the COD production environment. SAIG has two networks. One is Production and the other one is Test. You will need to send your files to TG75891 mailbox in the Test network. Schools that use EDConnect should ensure that they select the correct test message class (usually CRTESTIN) and not the production message class.

- Proactively contact your Testing Coordinator to help resolve issues, provide testing status, and answer questions during the testing process. Schools may experience delays in the testing process while issues are identified, researched, and resolved.

- Communicate to the COD School Relations Center when the School has satisfactorily completed School Testing or chooses to discontinue School Testing.
COD School Testing Sign-up Document

On the following page you will find the COD School Testing sign-up document. This document should be completed to the best of your ability upon submission. The completed document should be sent to the COD School Relations Center.

Send the completed document to COD School Relations at:

- E-mail: CODSupport@ed.gov, subject of “COD School Testing Sign-up”
- Fax: (877) 623-5082

Definitions of terms in the sign-up document and what information should be contained in them are listed below.

<table>
<thead>
<tr>
<th>Field Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>

All schools must use the Common Record in XML format to submit Pell and TEACH Grants and/or Direct Loan (DL) origination and disbursement data to the COD System over the Student Aid Internet Gateway (SAIG).

Schools should refer to Volume II of this technical reference for record layouts and processes.

Schools that participate in School Testing can test with the structured test cases described in this guide and will receive Response files from COD.

Test Data Sent from the Schools to the COD System

This section provides an overview of the records schools send to COD during the School Testing process. Each type of record and its general functionality are described. General test conditions are also discussed.

Common Record

The Common Origination and Disbursement process utilizes one single record across programs for both originations and disbursements. Schools use this Common Record, which is comprised of common data elements, definitions, edits, and structure for Pell and TEACH grants and Direct Loan awards. Although the record has the same layout for all programs, not all data elements are required for each transmission or for each program. This record layout relies on a technology called Extensible Markup Language (XML), to encode documents into machine-readable code.

For School Testing the Common Record is submitted using the message class CRTESTIN.

Upon receiving a Common Record in XML format, the COD System performs an immediate check to determine if the Common Record is readable. If the Common Record is readable and complies with the XML schema, the COD System will process the file. COD will not return a Response for records that are not readable nor comply with the XML schema.

After the COD System confirms the Common Record is readable and complies with the XML schema, the COD System classifies the record to determine how it will be processed. The record is classified as either a new record or an update record.

Establishing a New Record

A new record establishes a new student, award or disbursement on the COD System. There are three types of new records:

- New Student with a New Award - If the student identifier does not match any previously submitted to the COD System the record is considered a new student. A student cannot be established on the COD database until an award is accepted for the student.

- New Award - If the student identifier matches a person already established on the COD System, the system checks to determine if the award is already on file. If not, then the record is considered a new award.

- New Disbursement – If the person and award already exist on the COD System, the system checks the disbursement number submitted for the award. If it is not already on file, the system logs the disbursement as a new disbursement. There are two types of disbursement records:
Actual Disbursement – Actual disbursement records contain a Disbursement Release Indicator = true

Anticipated Disbursement - Anticipated disbursement contain a Disbursement Release Indicator = false. These disbursements are not considered actual disbursements; therefore, they do not substantiate drawdowns to the school.

Establishing a Change Record

A change record performs an update to information or elements that were previously established on the COD System. There are two types of update records:

- Change Record – A change record performs an update to an award or disbursement data element that was previously established by a new record OR is used to change disbursement amounts or dates of an existing award or grant.

- Actual Disbursement Record - An Actual Disbursement record is submitted with a Disbursement Release Indicator = true for a disbursement record previously submitted as an anticipated disbursement. An actual disbursement signals to the COD System that the disbursement information is an actual disbursement. It substantiates cash already made available to the school.

After the Common Record is processed the COD System returns a Response to the school.

For School Testing, the Response is returned using the message class CRTESTOP.

Testing with the predefined test data covers scenarios for nine students including:

- New Students with a New Award
- New Disbursements – Actual Disbursements
- New Disbursements – Anticipated Disbursements
- Change Records
- Actual Disbursement Records

The Common Record layout is provided in the Volume II, Section 3 – Common Record Layout of this technical reference.
Test Data Received by the Schools from COD

This section provides an overview of the different record types that are received by a school from COD during the test process.

Common Record Response

The Common Record Response is sent back to the school after processing is complete. Schools have the option of selecting either a standard or full Common Record Response. A full Response contains all the data elements that were in the original Common Record sent by the school and the rejected data elements and reason codes. A standard Response contains only the rejected data elements and error reason codes. It is recommended that full Responses be used during this testing process. Test Responses are sent using the message classes CRTESTOP.
Test Execution

In this section, record profiles are provided for each test case. Use these test scripts in conjunction with the Volume II, Section 3 – Common Record Layout. Specific data are defined, and step-by-step instructions for executing the test are provided. Below is a checklist of the major steps in the testing process:

Common Record Manual Verification

The purpose of the Common Record Manual Verification testing is to ensure that the school’s XML Common Record is well formed and properly structured according to the rules of the XML Common Record Schema. The COD team manually reviews a Common Record document sent by the school and assists the school in the identification of potential updates to their Common Record submissions. This testing does not validate the data submitted within the Common Record. For this phase of testing, only two student records should be sent in the Common Record.

Common Record Manual Verification Checklist

<table>
<thead>
<tr>
<th>Step</th>
<th>Task</th>
<th>Task Completed</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Schedule test dates with the COD School Relations Center for XML Common Record Manual Verification Testing (Phase I).</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>Schools should use the test cases included in this document for the XML Common Record Manual Verification testing. This test data, after it has passed the XML structure verification, can be used in system testing and eliminate the need for the school to create more test data. DO NOT send real SSN, name, and/or address combinations. This is in respect to the Privacy act of 1974.</td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>Schools should e-mail Common Record data to COD School Relations Center. (E-mail address to be provided upon sign-up for testing).</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>Schools will receive the results of the XML Common Record Manual Verification via e-mail. The results will include a list of errors and actions that need to be taken by the school to correct the data. It may also include a corrected file for the school to use as a reference for making corrections. Some potential errors are file size errors, missing tags and unused tags.</td>
<td></td>
</tr>
<tr>
<td>5</td>
<td>Repeat steps 2-4 until test data passes XML Common Record Manual Verification.</td>
<td></td>
</tr>
</tbody>
</table>

Structured Application Testing

The purpose of the Structured Application Testing is to ensure that schools can send, receive, and process batches of records using detailed input instructions with detailed expected results issued by COD. Schools use a test Institutional Student Information Record (ISIR) file, supplied by COD that creates a test data set of students to use with the structured test cases. During this phase, Schools send Common Record documents to COD and receive Common Record Response documents back from COD. This phase of testing is not all-inclusive; it is meant only to ensure schools can send, receive and process records with detailed expected results.

Please note that Structured Application Testing can begin only after successful completion of the Common Record Manual Verification Testing.

Please note that Common Record Manual Verification is a required test phase for all schools that participate in School Testing.
The submission of all test cases is not required in order to participate in Structured Testing. Schools are encouraged to use the test cases which are supported by their software. The test cases are meant as a guide to submit records. Not all test case fields are required for processing. Schools may submit programs within individual or combined batches. This is to allow schools the option of submitting several batches in a given test cycle due to software limitations or organizational setup.

<td>Receive notification from the COD School Relations Center that the testing cycle is complete.</td>
<td></td>
</tr>
<tr>
<td>13</td>
<td>If a test environment was not used, reset the school’s system defaults for production, and verify that the test data is deleted or all test grants/loans are adjusted to $0. <strong>Note:</strong> If system is not reset to the defaults, it may cause errors in the production data. Remember to change the school test environment system date back to the correct current date.</td>
<td></td>
</tr>
</tbody>
</table>
**Test Student Profiles**

**Case #1: Student 1 applies for Pell & TEACH Grants**

The student is a second year student (Student Level Code = 2) eligible for Pell and two TEACH Grant awards. The first submission contains the Common Record person, award, and disbursement with incorrect student date of birth data. The school receives a Response indicating that the awards rejected with edits 011 and 996 due to no eligible SSN, DOB and last name combination match on CPS. The second submission contains an updated record for the correct student DOB which will allow all awards to be accepted.

**Case #2: Student 2 applies for a Federal Pell Grant and a Parent PLUS Direct Loan**

This student is a second-year student (Student Level Code = 2) and is eligible for a Pell Grant (EFC = 3,400) and a PLUS loan. The first submission contains the Common Record person, awards and disbursements. Disbursement data shall be established with a Disbursement Release Indicator = false for the Pell Grant, and Disbursement Release Indicator = true for the PLUS award. The student is awarded a Pell Grant of $2,425 and a PLUS loan of $6,600.

The second submission contains an adjustment to the award and disbursement amounts of each award/grant and changes the Disbursement Release Indicator to true for the Pell Grant.

**Case #3: Student 3 applies for a Federal Pell Grant**

This student is an incoming first-year student (Student Level Code = 0) and is eligible for a Pell Grant (EFC = 0). The first submission contains the Common Record person, award, and disbursement data with a Disbursement Release Indicator = false. The student is awarded a Pell Grant of $5,775.

The second submission contains a Release Record with a Disbursement Release Indicator = true for an actual disbursement.

**Case #4: Student 4 applies for Unsubsidized and Grad PLUS Direct Loans and a TEACH Grant**

This student is a first-year graduate professional (Student Level Code = 6 and Additional Eligibility Unsubsidized Indicator = true). The student is awarded an Unsubsidized Loan of $12,000, a Grad PLUS loan of $4,500, and a TEACH Grant of $4,000. The first submission contains disbursement information with a Disbursement Release Indicator = true, for the Unsubsidized and Grad PLUS awards, and Disbursement Release Indicator = false for the TEACH Grant.

The second submission contains a Release Record with a Disbursement Release Indicator = true for an actual disbursement for the TEACH Grant.
Case #5: Student 5 applies for an Unsubsidized Direct Loan

This student is an undergraduate student (Student Level Code = 5), and is an eligible non-citizen for a Direct Unsubsidized Loan. The student is awarded a Direct Unsubsidized Loan for $3,500. The first submission contains disbursement information with a Disbursement Release Indicator = true.

The second submission for Unsubsidized DL includes a decrease in the award and disbursement amounts.

Case #6: Student 6 applies for Subsidized and Unsubsidized Direct Loans

This student is a first-year student (Student Level Code = 1). The first and only submission contains the Common Record person, award, and disbursement data with a Disbursement Release Indicator = true for each award. The student is awarded a Direct Subsidized Loan for $2,000 and a Direct Unsubsidized Loan for $1,500.

Case #7: Student 7 applies for a Parent PLUS Direct Loan and TEACH Grants

This student is a third-year student (Student Level Code = 3) with a Parent PLUS loan for $10,000 and two TEACH awards totaling $8,000 ($7,416). The first submission contains a Common Record with disbursement information and a Disbursement Release Indicator = true for the Parent PLUS loan, and a Disbursement Release Indicator = false for the TEACH grants.

The second submission includes a Release Record with a Disbursement Release Indicator = true for only the disbursements of each TEACH grant.

Case #8: Student 8 applies for a Pell Grant, and Subsidized and Unsubsidized Direct Loans

This student is a second-year student (Student Level Code = 2) with an EFC of 2,000 and a DoD Match Flag of “Y” on CPS (nullifying the EFC and permitting the student the maximum annual award limit). The first submission contains the Common Record person, awards, and disbursement data with a Disbursement Release Indicator = false for the Subsidized and Unsubsidized awards, and a Disbursement Release Indicator = true for the Pell Grant. The student is awarded a Pell Grant of $5,775, a Direct Subsidized Loan for $3,500, and a Direct Unsubsidized loan for $3,000. Warning Edit 168 will be drawn for the Pell award.

The second submission includes a Release Record with a Disbursement Release Indicator = true for all Direct Subsidized and Unsubsidized disbursements.
Case #9: Student 9 applies for Pell and TEACH Grants, and Subsidized and Unsubsidized Direct Loans

This student is a fourth-year student (Student Level Code = 4). The first submission contains the person, award and disbursements with a Disbursement Release Indicator = false for the Pell and a Disbursement Release Indicator = true for the Subsidized and Unsubsidized Direct Loans and TEACH Grant. The student is awarded -- a Pell Grant of $5,775, a TEACH Grant of $4,000 [$3,708], a Direct Subsidized Loan for $5,500, and a Direct Unsubsidized Loan for $5,000.

The second submission includes the adjustment of changing the Pell Grant disbursements to Disbursement Release Indicator = true. It also includes the adjustment to $0 of the Direct Unsubsidized award amount and disbursements. Warning Edit 119 may occur for this submission and is acceptable.

Note

As all 2013-2014 awards and forward must now be submitted with the appropriate Student Eligibility codes we have included acceptable codes for all of the awards in the Step by Step guide.

Creating Unique Social Security Numbers

Because there are a large number of schools participating in Schools Test, COD provides test data that aids in the identification of its school and test cases. To do this the following two point formula is used to generate a Social Security Number (SSN) for the school test data.

First Point: Five digits from the school’s OPE ID (positions 2 through 6) are used as the first five numbers of each SSN. For example, if a school OPE ID is 07777800 and the test data defines an SSN of ###-##-0001, the SSN would translate to 777-78-0001.

Second Point: The last digit of each student and borrower SSN indicates which Test Case that individual belongs to during Structured Testing. So going by the example above, Student 777-78-0001 belongs to Test Case 1.

Furthermore, other than the SSN, the data (Name, Date of Birth, Address, etc) for each Student within each Test Case is the same. The 6th, 7th, and 8th digits of the SSN are merely used to differentiate one Student/Borrower from another. So continuing with the above example, Students 777-78-0001, 777-78-0011, 777-78-0021, 777-78-0031, and 777-78-0041 belong to Test Case 1 and their Names, Dates of Birth, Address, etc are all the same. Only the SSN differentiates them.

Preparing the Test Environment

It is necessary to define separate, independent regions for the school test and production data. Before proceeding with testing, verify that the method defined is valid and that any test data created does not mix with live production data within the school’s environment. The school test environment must have the ability to modify the system processing date.

Setting System Defaults

For the Testing Process, any defaults in a school’s system should be set as follows:

Entity ID
- Contact the COD School Relations Center for this information prior to testing.

For Pell
- Cost of Attendance = 9000

For TEACH Grant
- Student Level Code = 0-7

For Direct Loan
- Promissory note prints on-site at school (PromissoryNoteCode = O)
- COD prints and sends disclosure statement to borrower (DisclosureStatementPrintCode = Y)
- Subsidized/Unsubsidized Fee Percentage = 1.073
- PLUS Fee Percentage = 4.292
- Subsidized/Unsubsidized Interest Rebate Percentage = 0
- PLUS Interest Rebate Percentage = 0
- Loan Period Start Date = 2016-07-02
- Loan Period End Date = 2017-07-01
- Student’s Academic Year Start Date = 2016-07-02
- Student’s Academic Year End Date = 2017-07-01

For All Programs
- Student Eligibility Code is Mandatory on all origination records starting in 2013-2014. They are optional on maintenance records.
- The Student Eligibility Codes listed in the Test Cases are valid examples based on the students provided to the schools. Schools may substitute a Student Eligibility Code of 1 with 2 and vice versa.

If a Subsidized/Unsubsidized loan is submitted with an earliest Disbursement Date on or after October 1, 2014 the corresponding Origination Fee Percent and Interest Rebate Percent must respectively be 1.073% and 0%.

The loan period start and end dates must be equal to or within the student’s academic year start and end dates.
Please keep in mind that Student Eligibility Code 1’s require additional Student Eligibility Code fields to be submitted as well.

- Some software and 3rd party service providers have accounted for the impact of the Sequester on TEACH awards. In this document Sequester impacts will be reflected on TEACH award and disbursements amounts followed by sequester adjusted amounts in brackets. Example: Award Amount = $4000 [$3708].

**First Test Cycle (First Submission)**

In the first test cycle, a school submits Common Records in XML format for up to nine students, as well as Release Records for all Direct Loan (i.e., PLUS, Unsubsidized and Subsidized) disbursements.

- One student with Pell and TEACH
- One student with Pell Grant and PLUS
- One student with Pell Grant
- One student with Direct Loan Unsubsidized and PLUS and TEACH
- One student with Direct Loan Unsubsidized
- One student with Direct Loan Unsubsidized and Subsidized
- One student with PLUS Loan and TEACH
- One student with Pell Grant, Direct Loan Unsubsidized and Subsidized
- One student with Pell Grant, TEACH Grant, Direct Loan Unsubsidized and Subsidized

Once the awards are in XML Common Record format, create one file (batch) to be sent to COD:

**First Test Cycle to COD in XML Format**

<table>
<thead>
<tr>
<th>File Description</th>
<th>Message Class</th>
<th>Maximum Number of Students in Batch</th>
</tr>
</thead>
<tbody>
<tr>
<td>Common Record Documents</td>
<td>CRTESTIN</td>
<td>9</td>
</tr>
</tbody>
</table>

COD processes the files, and the school receives two files from COD in return:

**First Test Cycle Responses from COD**

<table>
<thead>
<tr>
<th>File Description</th>
<th>Message Class</th>
<th>Maximum Number of Students in Batch</th>
</tr>
</thead>
<tbody>
<tr>
<td>Common Record Responses</td>
<td>CRTESTOP</td>
<td>9</td>
</tr>
</tbody>
</table>
Helpful Hints for Preparing Test Case Input Files and Receiving COD Responses

When XML errors and rejection edits occur after an input file is entered into the COD system these errors typically result because the input file contains errors. Many of these errors can be avoided before an input file is submitted. Common input errors include (but not limited to):

- Extra spaces (blanks) contained anywhere in the XML file. Each space, or position, counts as a value when the file processes through the COD system. As a result, the system does not accept the file as having the correct XML format and rejects the file.

- Personal Information of the Student and/or Borrower – Examples: Switching the SSN of Borrower and Student, incorrect SSN of Student/Borrower, Student/Borrower’s DOB, Student/Borrower’s Last Name, Student/Borrower’s Address Information (Address, City, State Province, and Postal Code lines), CPS Transaction Number, Student Level Code, and Citizenship Status Code.

- Award Information – Examples: Disbursement Amount (common error for this is Duplicate Adjustment Information), Disbursement Number, Disbursement Sequence Number, Interest Rebate Amount, Attendance Cost, Financial Award Amount, Award Year, Promissory Note Print Code, Payment Period Start Date, and Payment Period End Date.

- School Information – Examples: Attending/Reporting Routing ID.

- Direct Loans use DL code, and TEACH uses first six digits of OPE ID to construct the financial award ID for school.

- Remember that Test Cases are intended as a guide to submitting accurate records. Include only the test cases which are supported by your software. Keep as close to test cases as possible but include only eligible programs. For example, Test Case 8 includes a Pell Grant, DL Sub and DL Unsub. If the school is setup only for Pell, include only that program. Schools may submit several submissions with only one program due to software limitations.

An XML error will result in the input file not being processed at all by the COD system. The system will process an input file with incorrect information (some examples of which are provided, above) and generate a variety of edits (depending on the number and degree of input errors) in its Response. Because an input file can contain a variety and combination of errors, it is not possible to list all possible edits occurring under all possible conditions.
The following are the most common edits and/or combination of edits that can result from a Response if the above information is not correct in the input file:

Edits: 011, 012, 024, 034, 039, 056, 058, 060, 077, 078, 100, 114, 117, 120, 121, 996 and 998

It should also be noted that some edits also have companion edits. This means that if an edit is generated, it can be followed by a second edit because it is directly related to the first edit. When the first edit is resolved, this will typically also resolve the companion edit. Because of the variety and combination of errors that can be processed from an input file, not all possible edits and their companion edits can be listed.

Edits can be triggered for more than one type of error. For instance, an Edit 996 can be triggered by a variety of input errors (e.g., an incorrect Student SSN, a school having an incorrect or incomplete Award Year Setup, or an incorrect Financial Award Amount entered for a student). A single edit like this can occur under such varied conditions, due to the nature of the errors contained in that particular XML file. Depending on the award year, a particular edit or combination of edits can also be generated, based on incorrect information being submitted in the input file.

Even when an input file is in the correct XML format and contains correct information, it is still possible for the file to generate edits. In many of these cases, these are expected edits. In some cases, these edits can also have companion edits generated. Examples of the most common edits include (but not limited to):

- Disbursement Release Indicator
- Disbursement Date
- Award Year Setup
- Document ID

For more detailed information on specific edits, Schools should refer to Volume II, Section 4 of this technical reference for Common Record Edits. This reference guide specifically defines the edits and the edit types. The reference also identifies conditions under which the edit occurs and provides solutions/actions for preventing these edits from reoccurring in the future.

NOTE: COD manages the test environment and the processing of input records. Any concerns regarding the environment or input record processing should be discussed with COD. CPS is responsible for the ISIR layout and COD manages ISIR generation for School Test only. Any concerns about the ISIR layout should be discussed with CPS and any concerns about ISIR generation should be discussed with COD. School Setup Information is managed by COD. If you generate an edit for your School Information, and you have verified that your School Information is correct, you should contact COD.
Test Cases: Step by Step

The following steps assist the schools in completing these submission tasks:

**Case 1: Pell and TEACH Grants**

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Originate and disburse a Pell and two TEACH awards for Student #1 with an SSN = ####-##-0001, where ###### represents the second through sixth digits of the specified OPE ID. <strong>For example:</strong> If the specified OPE ID is 07778000, the SSN for this student is 777-78-0001.</td>
</tr>
</tbody>
</table>
| 2    | Submit a Common Record containing the following information: **Student:**  
Person Information:  
Student’s Current SSN = ####-##-0001  
Student’s Date of Birth = 1992-01-01  
Student’s First Name = Student

### Case 8: Pell Grant and Subsidized and Unsubsidized Direct Loans

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
</table>
| 55   | Originate and disburse a Pell Grant, a Subsidized Loan and an Unsubsidized Loan for Student #8 with an SSN = ###-##-0008, where ###-## represents the second and sixth digits of the specified OPE ID.  
**For example:** If the specified OPE ID is 07777800, the SSN for this student is 777-78-0008. |
| 56   | Submit a Common Record containing the following information:  
**Student:**  
Person Information:  
Student’s Current SSN = ###-##-0008  
Student’s Date of Birth = 1991-08-08  
Student’s First Name = Student  
Student’s Middle Initial = C  
Student’s Last Name = TESTEIGHT |
### Award Information:
**Pell Complex Element**
- Award Year = 2017 (2016-2017)
- CPS Transaction Number = 01
- Award Amount = 5775
- Cost of Attendance = 9000
- Enrollment Date = 2016-07-01
- Student Eligibility Code = 02

**Note:** Expected Family Contribution (EFC) is not submitted to COD as COD receives this data through an interface with CPS. This test case does NOT use the Secondary EFC. Student has a DOD value of ‘Y’, which provides for the equivalent of a zero EFC.

### Disbursement Information:
- Disbursement Number = 01
- Disbursement Amount = 5775
- Disbursement Date = 2016-07-03
- **Disbursement Release Indicator = true**
- Disbursement Sequence Number = 01

### Send Files to COD

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>77</td>
<td>Prepare the Common Record in XML.</td>
</tr>
<tr>
<td>78</td>
<td>Transmit the batch to COD via the SAIG using the message class CRTESTIN and your Test Destination Mailbox.</td>
</tr>
<tr>
<td>79</td>
<td>COD processes the batch and the Response records are then placed on the SAIG to be retrieved.</td>
</tr>
</tbody>
</table>

### Receive Responses from COD

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>1. Import the Response into the school’s system. The message class is CRTESTOP.</td>
</tr>
<tr>
<td>81</td>
<td>2. Contact the COD School Relations Center to verify the results and the successful completion of the second test cycle.</td>
</tr>
</tbody>
</table>
Second Test Cycle (Second Submission)

In the second test cycle, a school performs the following steps:

- Submit updates to Student demographic data
- Submit updates and adjustments to award and disbursement amounts
- Submit Release Records for actual disbursements

**Second Test Cycle to COD in XML Format**

<table>
<thead>
<tr>
<th>File Description</th>
<th>Message Class</th>
<th>Maximum Number of Students in Batch</th>
</tr>
</thead>
<tbody>
<tr>
<td>Common Record Documents</td>
<td>CRTESTIN</td>
<td>9</td>
</tr>
</tbody>
</table>

COD processes the files, and the school receives two files from COD in return:

**Second Test Cycle Responses from COD**

<table>
<thead>
<tr>
<th>File Description</th>
<th>Message Class</th>
<th>Maximum Number of Students in Batch</th>
</tr>
</thead>
<tbody>
<tr>
<td>Common Record Responses</td>
<td>CRTESTOP</td>
<td>9</td>
</tr>
</tbody>
</table>
Test Cases: Step by Step

The following steps assist the schools in completing these submission tasks:

**Case 1: Pell and TEACH Grants**

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Retrieve Student #1 (###-##-0001).</td>
</tr>
</tbody>
</table>
| 2 | Re-submit all three awards with the correct Person Information:  
Student’s Current SSN = ###-##-0001  
Student’s Date of Birth = 1991-01-01  
Student’s Last Name = TESTONE |
| 3 | Before proceeding, make sure the record is saved. |

**Case 2: Pell Grant and Parent PLUS Loan**

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Retrieve Student #2 (###-##-0002).</td>
</tr>
</tbody>
</table>
| 5 | Submit the Person Information:  
Student’s Current SSN = ###-##-0002  
Student’s Date of Birth = 1991-02-02  
Student’s Last Name = TESTTWO |
| 6 | Pell Disbursement Information to adjust the first disbursement:  
Disbursement Number = 01  
Disbursement Amount = 451  
Disbursement Date = 2016-07-03  
**Disbursement Release Indicator = true**  
Disbursement Sequence Number = 01 |
| 7 | PLUS Loan Disbursement Information to adjust the award amount and first disbursement:  
FinancialAwardAmount = 5500  
Disbursement Number = 01  
Disbursement Sequence Number = 02  
Disbursement Date = 2016-07-03  
Disbursement Amount = 5500  
**Disbursement Release Indicator = true** |
| 8 | Before proceeding, make sure the record is saved. |

**Case 3: Pell Grant**

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>9</td>
<td>Retrieve Student #3 (###-##-0003).</td>
</tr>
</tbody>
</table>
| 10 | Submit the Person Information:  
Student’s Current SSN = ###-##-0003  
Student’s Date of Birth = 1993-03-03  
Student’s Last Name = TESTTHREE |
| 11 | Update the **Disbursement Information** for Pell:  
Disbursement Number = 01  
Disbursement Sequence Number = 01  
Disbursement Date = 2016-07-03 |
### Case 4: TEACH Grant

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>13</td>
<td>Retrieve Student #4 (###-##-0004).</td>
</tr>
</tbody>
</table>
| 14   | Submit the Person Information:  
|      | Student’s Current SSN = ###-##-0004  
|      | Student’s Date of Birth = 1984-04-04  
|      | Student’s Last Name = TESTFOUR |
| 15   | Update the **Disbursement Information** for the TEACH Grant:  
|      | Disbursement Number = 01  
|      | Disbursement Sequence Number = 01

</tbody>
</table>
| 18   | Submit the Person Information:  
|      | Student’s Current SSN = ###-##-0005  
|      | Student’s Date of Birth = 1989-05-05  
|      | Student’s Last Name = TESTFIVE |
| 19   | Update the **Unsubsidized Award Amount**:  
|      | **From:** 3500 **To:** 2800 |
| 20   | Update the **Disbursement Information** for Unsubsidized Loan:  
|      | Disbursement Number = 01  
|      | Disbursement Sequence Number = 02  
|      | Update Disbursement Amounts:  
|      | **Disbursement Amount: From:** 1750 **To:** 1400  
|      | **Disbursement Fee Amount: From:** 0 **To:** 0  
|      | **Interest Rebate Amount:** 0  
|      | **Disbursement Net Amount: From:** 1750 **To:** 1400  
|      | **Disbursement Release Indicator = true** |
| 21   | Update the **Disbursement Information** for Unsubsidized Loan:  
|      | Disbursement Number = 02  
|      | Disbursement Sequence Number = 02  
|      | Update Disbursement Amounts:  
|      | **Disbursement Amount: From:** 1750 **To:** 1400  
|      | **Disbursement Fee Amount: From:** 0 **To:** 0  
|      | **Interest Rebate Amount:** 0  
|      | **Disbursement Net Amount: From:** 1750 **To:** 1400  
|      | **Disbursement Release Indicator = true** |
| 22   | Before proceeding, make sure the record is saved. |

### Case 7: TEACH Grants

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>23</td>
<td>Retrieve Student #7 (###-##-0007).</td>
</tr>
</tbody>
</table>
24. Submit the Person Information:
   Student’s Current SSN = ###-##-0007
   Student’s Date of Birth = 1991-07-07
   Student’s Last Name = TESTSEVEN

25. Update the **Disbursement Information** for the two TEACH Grants:
   - Disbursement Number = 01
   - Disbursement Sequence Number = 01
   - Disbursement Date = 2016-07-03
   - **Disbursement Release Indicator = true**

26. Save the record.

**Case 8: Subsidized and Unsubsidized Direct Loans**

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>27</td>
<td>Retrieve Student ###-##-0008.</td>
</tr>
</tbody>
</table>
| 28   | Submit the Person Information:
   Student’s Current SSN = ###-##-0008
   Student’s Date of Birth = 1991-08-08
   Student’s Last Name = TESTEIGHT |

29. Update the **Disbursement Information** for Direct Loan Subsidized and Unsubsidized Loans:
   - Disbursement Number = 01
   - Disbursement Sequence Number = 01
   - Disbursement Date = 2016-07-03
   - **Disbursement Release Indicator = true**

   - Disbursement Number = 02
   - Disbursement Sequence Number = 01
   - Enrollment School Code = ######## (denoting the 8 digit OPE ID of the school the student is enrolled at)
   - Disbursement Date = 2016-07-03
   - **Disbursement Release Indicator = true**

30. Save the record.

**Case 9: Pell Grant and Unsubsidized Loan**

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>31</td>
<td>Retrieve Student #9 (###-##-0009).</td>
</tr>
</tbody>
</table>
| 32   | Submit the Person Information:
   Student’s Current SSN = ###-##-0009
   Student’s Date of Birth = 1989-09-09
   Student’s Last Name = TESTNINE |

33. Update the **Disbursement Information** for Pell Grant:
   - Disbursement Number = 01
   - Disbursement Sequence Number = 01
   - Disbursement Date = 2016-07-03
   - **Disbursement Release Indicator = true**

34. Update Award Amount for Unsubsidized Loan:
   From 5000 To 0

35. Update the **Disbursement Information** for Unsubsidized Loan:
   - Disbursement Number = 01
### Prepare Document Block and Entity Block for Batch

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>36</td>
<td>Save the record.</td>
</tr>
</tbody>
</table>

#### Transmit the following Document tags with this batch to COD:

```xml
<xs:documentation
  targetNamespace=http://www.ed.gov/FSA/COD/2015/v4.0b
  xmlns:xs=http://www.w3.org/2001/XMLSchema
  xmlns:xsi=http://www.w3.org/2001/XMLSchema-instance
  xmlns:cod=http://www.ed.gov/FSA/COD/2015/v4.0b
  elementFormDefault="qualified">
  (Root element for the document)
  <TransmissionData>
    <DocumentID>(Date/Time stamp with Source Routing ID)</DocumentID>
    <CreatedDateTime>(CCYY-MM-DDTHH:mm:ss.ff)</CreatedDateTime>
    <Source>
      <School>
        <RoutingID>99999999</RoutingID>
      </School>
      or
      <ThirdPartyServicer>
        <RoutingID>99999999</RoutingID>
      </ThirdPartyServicer>
    </Source>
    <Destination>
      <COD>
        <RoutingID>00000001</RoutingID>
      </COD>
      <FullResponseCode>F</FullResponseCode>
    </Destination>
  </TransmissionData>
```

#### Transmit the following Entity tags with this batch to COD:

```xml
<ReportingSchool>
  <RoutingID>
    <ReportedFinancialSummary>(one for each type of award in the record)
      <FinancialAwardType>
        <FinancialAwardYear>
          <TotalCount>
            <TotalReportedAward>
              <TotalReportedDisbursement>
                </ReportedFinancialSummary>
                <AttendedSchool>
                  <RoutingID>
```
## Send Files to COD

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>39</td>
<td>Prepare the Common Record in XML.</td>
</tr>
<tr>
<td>40</td>
<td>Transmit the batch to COD via the SAIG using the message class <strong>CRTESTIN</strong> and your Test Destination Mailbox.</td>
</tr>
<tr>
<td>41</td>
<td>COD processes the batch and the Response records are then placed on the SAIG to be retrieved.</td>
</tr>
</tbody>
</table>

## Receive Responses from COD

<table>
<thead>
<tr>
<th>Step</th>
<th>Action/Input</th>
</tr>
</thead>
<tbody>
<tr>
<td>42</td>
<td>Import the Response into the school’s system. The message class is <strong>CRTESTOP</strong>.</td>
</tr>
<tr>
<td>43</td>
<td>Contact the COD School Relations Center to verify the results and the successful completion of the second test cycle.</td>
</tr>
</tbody>
</table>
Wrap-Up

This section describes the final steps associated with the testing process and provides some suggestions for the school during the conversion to a production status.

Notification of Results

The COD School Relations Center notifies the contact person at the participating school of the results of each test cycle. If problems are discovered, a retest is scheduled. The contact person should be available during the testing period to analyze problems, assist with, and coordinate any follow-up tests that may be required. Schools should contact the COD School Relations Center if test results are not received or communicated when expected.

Preparing School Database for Production

The school should clean out their system, by removing all test data, before sending production data.

- **Warning:** Ensure that the system date is changed back to the current date and that message classes and destinations have been changed from ‘test’ to ‘production’.

- **Warning:** All test data MUST be removed from a school’s system prior to beginning actual processing and before sending live production data to COD.

- **Warning:** Test Message Classes and the Test Destination Mailbox MAY NOT be used to process production data.

Production data is processed using the production message classes outlined in *Volume II, Section 2* of this technical reference.
**Addendum**

This section describes updates to School Testing capabilities.

Environment: The School Test environment is a full test environment. This means the test environment may roll the date forward as is done in Production. This will not impact Phase I Manual Verification. Upon official commencement of Phase II testing COD Schools Test, Current Processing Date (CPD), will be set to July 3rd, 2016. This CPD may be rolled forward at any time thereafter and may affect school’s award and/or disbursement posting dates. For this reason, checking the COD Schools Test CPD (at URL https://cod.v2247.tsysecom.com/cod/LoginPage) may be helpful when establishing certain award and disbursement dates. (Note when navigating to the site, you may receive a warning concerning the security certificate. Select the “Continue to this website (not recommended)” link, to display the COD Schools Test home page.)

Program Related: Prior to award processing, the COD Test Team submits an MPN for each Direct Loan award and an ATS for each TEACH grant. This circumvents any edits from the system requiring a linked note to allow actual disbursements. Program CIP Codes are not listed for any DL awards in the step-by-step guide. You may use any CIP Code that is valid in production for these tests.

COD began processing Student Eligibility Code elements beginning with Award Year 2011-2012. From then until the end of Award Year 2012-2013 Student Eligibility Code elements were optional fields. Starting in Award Year 2013-2014 and going forward Student Eligibility Code elements become mandatory in award submissions. The Test Cases have been updated to reflect this requirement.

Beginning with Award Year 2012-2013 COD will require the Enrollment School Code element for sequence number 01 disbursements of all Direct Loan, Pell, and TEACH program originations. The value assigned to this element will indicate the OPE identifier of the school where the student is currently enrolled (i.e., attending school). For this reason the Enrollment School Code has been incorporated into Disbursement Sequence Number 01 blocks of each Origination (Test Cycle 1) record profile. This element may also be specified in maintenance records of accepted awards and grants, when desiring to change the Enrollment School Code.

In addition, the COD System will begin accepting all Direct Loan (i.e., Subsidized, Unsubsidized, Parent PLUS, Grad PLUS) Interest Rebate Percentages of zero (0) for Award Year 2012-2013, with actual disbursement dates of July 1, 2013 and forward. Test Case Step by Step scenario values have been updated to reflect the application of 0% rebates in Interest Rebate Percentage and corresponding Disbursement Net Amount elements.

Starting with Release 11.1 graduate and professional students will no longer be allowed to receive DL Subsidized awards with an Award
Begin Date on or after 7/1/2012. DL Subsidized award originations have been removed from TEST Case 4.

Award Year 2015-2016 will see the implementation of the SULA updates and the fields necessary for its implementation. The fields to be added will be detailed in Volume II of the COD Technical Reference. These new fields have straight-forward requirements and so we did not add them to the Step-by-Step guide. The school may use any correct set of values that fit the Test Cases as they see fit.

Sequestration: Sequestration rules apply to different programs in different ways. The Pell program wasn’t impacted. Direct Loans were impacted by an increase in the Origination Fee Percentage to 1.073%. TEACH awards were impacted by sequestration. TEACH awards whose earliest disbursement date is on or after October 1st 2014 must reduce the award amount by 7.3%. This reduction is not enforced by COD. It is enforced at school level. The test cases involving TEACH awards will show the usual award and disbursement amounts normally and then show the sequestration amounts in brackets (example Award = 4000 [3708]).
